# INTELLECTUAL PROPERTY REGISTRY OF SAMOA (IPROS)

JOURNAL 2023/02

Publication Date - 14/04/2023

## GENERAL INFORMATION

The Public is hereby notified that the following persons have applied for the Registration of the Trade Marks as set out in Section 50 of the Intellectual Property Act 2011. Any person who wishes to oppose the registration of any of the under-mentioned Trade Marks, must give notice to the Registrar of Trade Marks, c/- Ministry of Commerce, Industry and Labour, Apia, Samoa within three (3) months from the date of this publication. The notice must be in writing and must include a statement of the grounds of opposition. Each notice of opposition must be accompanied by a filing fee of WST\$300. Any person who has any doubts as to whether he/she may be affected by the registration of the Trade Mark in Samoa should consult his/her Solicitor immediately.

For any enquiries regarding Trade Marks, please contact the Registry of Intellectual Property at the following telephone number (+685) 20441 or email [ipros@mcil.gov.ws](mailto:ipros@mcil.gov.ws)

Faafetai,

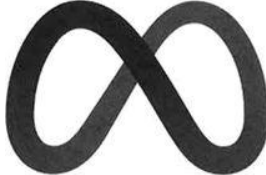

**Registrar of Intellectual Property**

**Specification of goods/services:**

**Class 9:** Downloadable software in the nature of a mobile application; Computer hardware; Downloadable software for social networking and creating and interacting with online communities; Downloadable software for creating, managing and accessing groups within virtual communities; Software development tools; Downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Downloadable software for use as an application programming interface (API); Downloadable software for organizing events, searching for events, calendaring and managing events; Downloadable software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Downloadable computer software for finding content and content publishers, and for subscribing to content; Downloadable software for creating and managing social media profiles and user accounts; Interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; Downloadable software for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data; Downloadable software for enabling transmission of images, audio, audio visual and video content and data; Downloadable software for modifying photographs, images and audio, video, and audio-visual content; Downloadable software for use in taking and editing photographs and recording and editing videos; Downloadable software for processing images, graphics, audio, video, and text; Downloadable software for collecting, managing, organizing, synchronizing, and the storage of data and information; Downloadable e-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; Downloadable software and mobile application software providing a virtual marketplace; Downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; Downloadable software for file sharing; Downloadable messaging software; Computer search engine software; Downloadable software for use in creating, managing, measuring, and disseminating advertising of others; Advertisement server, namely, a computer server for storing advertisements and delivering advertisements to websites; Downloadable software for creating, sharing, disseminating and posting advertising; Downloadable software for geo-location based advertising and product and service promotion; Downloadable software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online

communities for marketing purposes; Downloadable virtual reality software; Downloadable augmented reality software; Downloadable mixed reality software; Virtual reality software for interactive entertainment and virtual reality gaming; Augmented reality software for interactive entertainment and augmented reality gaming; Downloadable software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Downloadable software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Downloadable software for operating, configuring, and managing virtual reality headsets and controllers; Downloadable software for gesture recognition, object tracking, motion control, and content visualization; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Downloadable software for navigating a virtual reality and augmented reality environments; Downloadable software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; Downloadable software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Downloadable software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Virtual reality game computer hardware; Augmented reality game computer hardware; Mixed reality game computer hardware; Virtual reality computer hardware; Augmented reality computer hardware; Motion tracking sensors for virtual reality and augmented reality technology; Virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; Augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Hardware and software for detecting objects, user gestures and commands; Downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Computer software for controlling the operation of audio and video devices; Video display software; Downloadable software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Downloadable software for converting natural language into machine-executable commands; Downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Downloadable software, namely, an interpretive interface for facilitating interaction between humans and machines; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Downloadable virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Downloadable software for providing consumer information; Downloadable software for providing electronic maps; Location-aware downloadable software for searching, determining, and sharing locations; Downloadable software for searching and identifying employment opportunities; Downloadable software for identifying and allowing users to contact government representatives; Downloadable software providing location-based weather information; Downloadable software providing, linking to, or streaming news or current events information; Parental control software; Computer software; Computer operating systems; Downloadable software for enabling electronic devices to share data and communicate with each other; Computer peripheral devices; Wearable

peripherals for computers, tablet computers, mobile devices and mobile telephones; Digital media streaming devices; Headsets and headphones; Video display hardware, namely, video drivers for video eyewear; Cameras; Batteries; Battery cases; Battery packs; Rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; Battery chargers; Rechargeable external battery packs for use with mobile electronic devices; Power charging and power management devices for mobile electronic devices; Charging stands for mobile electronic devices; External chargers for use with computers, tablet computers, mobile devices and mobile telephones; Wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; Power adapters; Electrical adapters, cable, and connectors; Bags and cases specially adapted for mobile electronic devices; Protective covers and cases for mobile electronic devices; Holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; Wall mounts for mounting mobile electronic devices; Stands for mobile electronic devices; Holders for mobile electronic devices; Remote controls for mobile electronic devices; Audio speakers; Electrical audio and speaker cables and connectors; Electronic cables parts and fittings; Electronic cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; SIM cards; Downloadable software for use in customer relationship management (CRM); Downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; Downloadable software for online charitable fundraising services and financial donation services; Downloadable software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; Communication software and communication computer hardware for providing access to the Internet; Telecommunications equipment; Radio receivers and transmitters; GPS receivers; Downloadable software to allow users to perform e-commerce transactions via the internet and communications networks; Downloadable computer software that allows users to make payments and transfer funds; Downloadable computer software that enables online users to make payments and transfer funds across multiple websites and mobile applications; Downloadable computer software for processing electronic payments; Computer software in the nature of a query engine; Downloadable software for facilitating machine learning; Downloadable software for building user interfaces; Downloadable electronic publications; Downloadable software for opinion polling; Downloadable software allowing users to post questions with answer options; Interactive photo and video equipment, namely, kiosks computer hardware for capturing, uploading, editing, printing and sharing digital images and video; Downloadable software for the synchronization of data between a remote station or device and a fixed or remote station or device; Voice command and recognition software, speech to text conversion software; Voice-enabled software applications for personal information management; Home automation and home device integration software; Wireless communication software for voice, audio, video, and data transmission; Downloadable software used for controlling stand-alone voice controlled information and personal assistant devices; Downloadable software for voice recognition for use in connection with the transmission of voice and data; Downloadable software for accessing, browsing, and searching online databases, audio, video, and

multimedia content, games, and software applications, and software application marketplaces; Downloadable software for use to connect and control internet of things (iot) electronic devices; Computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Downloadable software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Downloadable software, for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data; Downloadable software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers or other portable consumer electronic devices; Downloadable software for searching television entertainment exploration guides; Downloadable software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Downloadable software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; Downloadable software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Electronic notepads; Electronic personal organizers; Electronic voice recording and voice recognition apparatus; Portable digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Wearable computer hardware; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Downloadable software for accessing, browsing and searching online databases; Downloadable software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Downloadable software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for transmission of communication; Apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; Blockchain; Downloadable computer software for use as a digital wallet; Computer programs and downloadable computer application software for electronic storage of data; Downloadable software for providing a digital wallet; Distributed ledger platform software; Software for use with distributed ledger technology; Downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, and manage digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Downloadable software for receiving, accepting, buying, selling, storing, transmitting and trading digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Downloadable software for implementing and recording financial transactions; Downloadable software for use in financial trading; Downloadable software for use in financial

exchange; Downloadable software for accessing financial information and market data and trends; Downloadable software for providing authentication of parties to a financial transaction; Downloadable software for maintaining ledgers for financial transactions; Downloadable software for the management of cryptographic security of electronic transmissions across computer networks; Downloadable software for encrypting and enabling secure transmission of digital information over the Internet; Downloadable software for allowing users to calculate parameters related to financial transactions; Downloadable software for electronic funds transfer; Downloadable software for currency conversion; Downloadable software for the collection and distribution of data; Downloadable software for payment transactions; Downloadable software for connecting computers to local databases and global computer networks; Downloadable software for creating searchable databases of information and data; Downloadable software for creating and managing smart contracts; Downloadable software for managing payment and exchange transactions; Downloadable software for use in an electronic financial platform; Downloadable software for processing electronic payments and for transferring funds to and from others; Blockchain platform software; Downloadable software for managing crypto currency and digital currency accounts; Downloadable software for developing, deploying, and managing software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Downloadable software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Downloadable software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; Downloadable software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; Downloadable software for managing money transfers and commodity transfers; Downloadable software for use as an application program interface (API) software for use in computer hardware device identification; Downloadable software for use in authenticating user access to computers and computer networks; Downloadable software for use in facilitating secure transactions; Downloadable software for use in accessing, reading, tracking, and using blockchain technology; Downloadable software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; Downloadable software for network identification verification, authentication and management services for security purposes; Downloadable authentication software for controlling access to and communications with computers and computer networks; Magnetically encoded credit cards and payment cards; Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Altimeters; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality glasses; Augmented reality headsets; Augmented reality software; Augmented reality software for interactive entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Cables, namely, electronic cables and connection cables; Cases, straps, wrist and arm bands for electronic monitoring devices; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer hardware for displaying data and video; Computer hardware for use in measuring heart rhythm; Computer hardware

for use in taking electrocardiograms; Computer operating system software; Computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; Computer peripherals for displaying data and video; Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer peripherals for remotely accessing and transmitting data; Computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality

and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video, and text; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; Computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software that monitor, track, and compare sport activity and fitness level; Computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; Computer software, namely, an application providing social networking functionalities; Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Computers, namely, smartwatches; Connection cables; Digital video eyewear; Digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic

media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Electric cables; Electrical adapters; Electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; Electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; Electronic navigational instruments and apparatus; Fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; Gesture recognition software; Glasses with the function of wireless communication; Global positioning system (GPS) devices; Goggles for enabling virtual reality, augmented reality and mixed reality world experiences; Hardware and software to view virtual images in creating virtual, augmented and mixed reality; Head mounted video display; Head-mounted display screen devices and their component parts, namely, video display cards; Headsets; Headsets for use with computers; interactive entertainment software; interface electronics, namely, video driver interface circuits for digital video eyewear; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Loudspeakers; Messaging software; Microdisplays, namely, head mounted video displays and near eye video displays; Mixed reality computer hardware; Mixed reality glasses; Mixed reality headsets; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Mobile

application software for creating personalized fitness training programs; Motion tracking sensors for augmented reality technology; Motion tracking sensors for mixed reality technology; Motion tracking sensors for virtual reality technology; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, heart rate, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, quality of sleep, and silent wake alarm; Near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; Near eye display systems comprised of GPS sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; Near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer hardware, electronic display interfaces, and software specifically adapted for goggles; Near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; Near eye displays; Network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; Pedometers; Peripherals for mobile devices, namely, pedometers and altimeters; Personal assistant software; Personal digital assistants; Personal electronic devices used to track fitness goals and statistics; Personal fitness trackers; Personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; Personal video display screens; Portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Remote control apparatus for wearable computer hardware and smartwatches; Sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; Smart glasses; Smart glasses with wired and wireless audio capability; Smartwatch bands; Smartwatch straps; Smartwatches; Social assistant software; Software and firmware for controlling, configuring and managing controllers; Software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for converting natural language into machine-executable commands; Software for creating and managing social media profiles and user accounts; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Software for creating, managing and accessing groups within virtual communities; Software for creating, managing, and interacting with an online community; Software for facilitating and arranging for the financing and distribution of fundraising and donations;

Software for generating images to be displayed in near-eye display system; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for online charitable fundraising services and financial donation services; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for planning activities with other users, making recommendations; Software for processing images, graphics, audio, video, and text; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social and destination mapping; Software for social networking; Software for streaming multimedia entertainment content; Software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use as an application programming interface (API); Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Virtual reality glasses; Virtual reality headsets; Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Wearable activity trackers; Wearable computer peripherals; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Wearable digital electronic devices, namely, glasses, goggles, and headsets; Wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Wireless computer peripherals

**Class 28:** Virtual reality headsets for playing video games for connection to computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones in

order to enable virtual reality experiences; Electronic and interactive multimedia game consoles; Video game interactive remote control units; Wearable peripherals for playing video games specially adapted for computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones; Game controllers for computer games; Audio and visual headsets for use in playing video games; Hand-held units for playing electronic, computer, interactive, and video games; Gaming devices, mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; Computer game consoles for use with an external display screen or monitor; Apparatus for electronic games other than those adapted for use with an external display screen or monitor; Apparatus for electronic games adapted for use with an external display screen or monitor; Bags specially adapted for handheld video games and video game consoles; Computer and video game joysticks; Computer gaming consoles for recreational game playing; Fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and hand-held video game units; Game controllers in the nature of keyboards for computer games; Games adapted for use with television receivers; Gaming headsets adapted for use in playing video games; Hand held joy stick units for playing video games; Handheld game consoles; Hand-held electronic games adapted for use with television receivers only; Hand-held games with liquid crystal displays; Hand-held units for playing electronic games for use with external display screen or monitor; Home video game machines; LCD game machines; Player-operated electronic controllers for electronic video game machines; Protective carrying cases specially adapted for handheld video games and video game consoles; Standalone video game machine; Stands for electronic game playing apparatus, namely, video game consoles and hand-held video game units; Tabletop units for playing electronic games other than in conjunction with a television or computer; Video game interactive hand held remote controls for playing electronic games; Controllers for game consoles; Arcade video game machines; Video game consoles; Games and playthings; Gymnastic and sporting articles not included in other classes; Decorations for Christmas trees; Body-building apparatus; Body-training apparatus; Body-training equipment; Equipment for sports and games; Exercise machines

**Class 35:** Advertising services; Advertising via electronic media; Dissemination of advertising for others via a global computer network; Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Advertising services, namely, advertising campaign management, targeting, implementation and optimization services; Preparation and realization of media and advertising plans and concepts; Design of advertising materials for others; Advertising services, namely, media planning and media buying for others, brand evaluation and brand positioning services for others, and advertising procurement services for others; Ad serving, namely, placing advertisements on websites for others; Advertising, marketing and promoting the goods and services of others by means of providing photo and video equipment at special events; Organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; Advertising services, namely, providing classified advertising space via the internet and other communication networks; Compiling of data in online computer databases and online searchable databases in the field of classifieds; Promoting the goods and services of others via computer and communication networks; Promoting the goods and services of others by means of distributing video advertising on via the internet and other communications networks; Providing promotional events via live streaming video; Marketing and promotion services; Consulting services in the fields of advertising and marketing; Business assistance and consulting services; Business consultation regarding marketing activities; Brand strategy consulting services; Business consultation in the field of telecommunications; Business management

consulting services to enable business entities, non-governmental organizations and non-profit organizations to develop, organize, and administer programs to offer greater access to global communications networks; Business networking services; Employment consultancy and recruiting services; Promoting sales for others by facilitating pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; Advertising services for promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Providing contest and incentive award programs for marketing and advertising purposes to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; Business consultancy services for professionals and businesses in the field of mobile software application development; Organizing, promoting, arranging and conducting special events, exhibitions, and tradeshow for commercial, promotional or advertising purposes; Organizing and conducting events, exhibitions, expositions and conferences for commercial purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; Online retail store services featuring virtual reality and augmented reality hardware and software; Online retail store services featuring virtual reality content and digital media namely, pre-recorded music, video, images, text, audiovisual works and virtual and augmented reality game software; Providing online marketplaces for sellers of goods and/or services; Business intermediary services in the nature of facilitating the exchange and sale of services and products of third parties via computer and communication networks; Connecting buyers and sellers via an online network environment; Promotional services, namely, providing electronic catalog services; Providing telephone directory information via global communications networks; Business assistance services, namely, customer relationship management; Providing commercial information, namely, user comments concerning business organizations, service providers, and other resources; Marketing research, namely, advertising campaign and consumer preferences research and analysis; Market research services; Provision of market research and information services; Business information management, namely, reporting of business information and business analytics in the fields of advertising and marketing; Business management; Business administration, office functions; Compiling online business directories featuring the businesses, products and services of others; Promoting the public interest and awareness of issues involving access to the internet for the global population; Association services, namely, promoting the adoption, acceptance and development of open source computer technologies; Organizing business networking events in the field of open source software; Promoting voluntary common industry standards for software development and execution; Arranging and conducting business conferences; Arranging and conducting business conferences in the field of programming language development and use; Conducting business investigations in the field of social media; Consulting services in the field of evaluating social media content; Consulting services in the field of social media policies and regulations; Marketing, advertising and promotion services; Business and advertising services; Market intelligence services; Providing a website featuring an online marketplace for selling and trading virtual goods with other users; Online trading services; Arranging and conducting special events for business purposes; Blockchain as a service, namely, business advice and information in the field of blockchain technology; Provision of electronic reminders and notifications; Advertising and information distribution services, namely, providing classified advertising space via the internet and communications networks; Advertising services, namely, targeting and optimization of online advertising; Arranging and conducting special events for commercial, promotional or advertising purposes; Association services that promote the interests of professionals and businesses in the field of mobile software application development; Brand consulting; Business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; Business and advertising services, namely, media planning and media buying for others; Procurement services for others,

namely, purchasing goods and service for other businesses; Business networking; Charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; Consulting services in the fields of advertising and marketing, namely, customizing advertising and marketing efforts of others; Dissemination of advertising for others via the internet and communication networks; Employment and recruiting services; Facilitating the exchange and sale of services and products of third parties via computer and communication networks; Marketing, advertising and promotion services, namely, providing information regarding discounts, coupons, rebates, vouchers, links to retail websites of others, and special offers for the goods and services of others; Online advertising and promoting the goods and services of others via the internet; Online retail store services featuring virtual reality, mixed reality and augmented reality headsets, games, content and digital media; Online retail store services in relation to electronic wearable fitness devices, personal weighing scales, wearable activity trackers, fitness and sports apparel, and accessories for the aforesaid goods; Organizing, promoting and conducting exhibitions, tradeshow and events for business purposes; Promoting the goods and services of others by means of distributing video advertising on the internet and communication networks; Promoting the goods and services of others via the internet and communication networks; Providing online business directories featuring the businesses, products and services of others; Providing online facilities for connecting sellers with buyers; Providing online facilities for live streaming video of promotional events; Providing online facilities for connecting sellers with buyers; Retail and online retail services for software, electronic devices and footwear incorporating sensors that allow consumers to engage in virtual athletic competitions and individual and group fitness classes; Retail and online retail store services that allow consumers to engage in fitness coaching, virtual athletic competitions, and individual and group fitness classes; Retail store services in relation to electronic wearable fitness devices, personal weighing scales, wearable activity trackers, fitness and sports apparel, and accessories for the aforesaid goods

**Class 36:** Financial transaction processing services, namely, providing secure electronic transactions and payment options; Electronic processing of bill payment data for users of the internet and communication networks; Payment transaction processing services; Electronic funds transfer services; Electronic credit card, debit card, and gift card transaction processing services; Providing electronic mobile payment services for others; Financial services; Payment processing services; Financial transaction services; Facilitating and arranging fundraising and the distribution of fundraising donations; Charitable services, namely, coordination of the procurement and distribution of monetary donations from individuals and companies to third-parties; Providing bill payment services via electronic mobile applications; Financial services, namely, providing a virtual currency for use by members of an online community in connection with video games, live streaming content, and video on demand content via the internet and communications networks; Financial exchange; Financial affairs, namely, financial management, financial planning, financial forecasting, financial portfolio management and financial analysis and consultation; Financial information provided by electronic means; Brokerage services; Dealer services; Currency dealing services; E-wallet services; Electronic wallet services; Financial services relating to electronic wallet services; Bill payment services provided via an electronic wallet; Electronic banking services via a global computer network; Currency trading; Facilitating transfers of electronic cash equivalents; News reporting services in the field of financial news; Financial services, namely, providing virtual currency services for use by members of an online community via a global computer network; Issuance of tokens of value; Electronic payment services; Processing electronic payments through electronic wallet services; Currency management services; Currency transfer services; Providing electronic processing and tracking of electronic funds transfers; Currency exchange services; Investment management services;

Custodial services for financial institutions and funds; Monetary exchange; Clearing and reconciling financial transactions; Financial information services; Electronic financial trading services; Electronic financial trading, namely, trading of the field of digitized assets; Providing information in the fields of investment and finance over computer networks and global communication network; Electronic trading of financial instruments; Electronic commerce payment services; Electronic processing and transmission of bill payment data for users of internet and communications networks; Financial transaction processing services, namely, providing secure commercial transactions and payment options; Financial transaction services, namely, providing a virtual currency for use by members of an online community via the internet and communications networks; Merchant services, namely, payment transaction processing services; Pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services

**Class 38:** Telecommunications; Telecommunications services, namely, electronic transmission of electronic media, data, messages, graphics, images, photos, videos, audio visual content and files; Telecommunication services, namely, data transmission and reception services via telecommunication networks; Telecommunications and peer-to-peer network computer services, namely, electronic transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Photo, video, and data sharing services, namely, electronic transmission of digital photo files, videos, and audio visual content among internet users; Telecommunication services, namely, electronic exchange of voice, data, audio, video, text and graphics accessible via the internet and other communications networks; Providing access to computer, electronic and online databases; Providing access to computer databases in the fields of social networking and social introduction and dating; Providing online forums for communication on topics of general interest; Providing online chat rooms, instant messaging services, and electronic bulletin boards; Chatroom services for social networking; Providing online communications links which transfer mobile device and internet users to other webpages; Facilitating access to third party websites or to other electronic third party content via a universal login; Audio, text and video broadcasting services over the internet or other communications network; Voice over internet protocol (VOIP) service; Telephony communication services; Mobile phone communication services; Video conferencing services; Providing facilities and equipment for video conferencing; Audio and visual teleconferencing services; Streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; Providing an online community forum for users to share and stream information, audio, video, real-time news, entertainment content, or information, to form virtual communities, and to engage in social networking; Telecommunications services, namely, electronic transmission of virtual reality content and data; Computer services, namely, providing technical support services regarding the usage of communications equipment; Web messaging services; Instant messaging services; Encrypted electronic transmission and delivery of recovered data; Provision of access to telecommunication networks and the internet; Providing internet connectivity; Providing information about telecommunication; Consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks; Internet service provider services; Internet broadcasting services; Telecommunications services, namely, providing internet access via broadband networks; Streaming and live streaming of audio, visual and audiovisual gaming content via a global computer network; Entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; Photosharing and video sharing services; Audio, text and video broadcasting services over the internet and other communications networks; Electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications networks; Peer-to-peer photo and data sharing services, namely, electronic transmission of digital photo files, graphics and audio content among internet users; Photo sharing and video sharing services, namely, electronic transmission of digital

photo files, videos and audio visual content among internet users; Providing a forum, chat rooms, and electronic bulletin boards for registered users for transmission of messages and sharing information regarding health and fitness, sport activities, and social networking via an online website and other computer and electronic communication networks; Providing a website featuring information regarding sports, fitness training, and athletic skill development; Providing an on-line forum for registered users for sharing information regarding personal activities, fitness, and social networking; Providing an online forum for registered users for sharing information regarding fitness, sport activities, fitness goals, fitness training and coaching, and social networking via an online website and other computer and electronic communication networks; Providing an on-line forum, chat rooms, and electronic bulletin boards for registered users for transmission of messages and sharing information regarding nutrition, personal activities, health and fitness, classifieds, and social networking; Providing electronic bulletin boards for transmission of messages among users in the field of general interest; Providing online communications links which transfer mobile device and internet users to other local and global online locations; Providing online forums for communication, namely, transmission on topics of general interest; Providing technical support services regarding the usage of communications equipment; Streaming of audio and video material related to athletic activities on the internet and other computer and electronic communication networks; Telecommunication services; Telecommunications services, namely, electronic transmission of data, messages, graphics, photographs, images, audio, video, audio-visual content, and information; Telecommunications services, namely, electronic transmission of virtual, mixed and augmented reality content and data; Teleconferencing; Voice over internet protocol (VOIP) services

**Class 41:** Entertainment services; Electronic publishing services for others; Publication of educational materials, namely, publishing of books, journals, newsletters, and electronic publications; Publication of non-downloadable online journals, namely, weblogs (blogs) featuring user-defined content, blogs featuring advertising, marketing and business content, and blogs about virtual reality and augmented reality; Providing online non-downloadable electronic publications resources for software developers; Entertainment and educational services, namely, providing online non-downloadable publications about virtual reality technology via a website; Entertainment and educational services, namely, providing online non-downloadable publications about augmented reality technology via a website; Entertainment services, namely, providing interactive and multiplayer and single player games played via the internet or communication networks; Entertainment services, namely, providing online video games, computer games, electronic games, and interactive games; Providing a computer game for use network-wide by network users; Providing online non-downloadable game software; Virtual reality game services provided via the internet and other communications networks; Augmented reality game services provided via the internet and other communications networks; Entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content and experiences; Entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality content and experiences; Entertainment services, namely, providing mixed reality games, interactive entertainment and mixed reality content and experiences; Entertainment services, namely, providing online virtual reality environments; Entertainment services, namely, providing online augmented reality environments; Augmented reality video production for entertainment purposes; Virtual reality video production for entertainment purposes; Multimedia entertainment production and publishing services; Entertainment services in the nature of production and post-production services of multimedia entertainment content; Entertainment and educational services, namely, providing non-downloadable movies, television shows, webcasts, audiovisual, and multimedia works via the internet, as well as information, reviews, and recommendations regarding movies, television shows, webcasts, audiovisual, and multimedia works; Providing information about online computer games and video games via the internet and other communications networks; Arranging and conducting educational conferences; Organizing exhibitions, events, and conferences in

the fields of culture, entertainment, education, and social networking for non-business and non-commercial purposes; Arranging and conducting competitions and entertainment events for players of video, computer, electronic or interactive multimedia games; Entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, consumer electronics, and video game entertainment software and hardware; Organizing exhibitions in the field of interactive entertainment, virtual reality, consumer electronics and video game entertainment industries for cultural or educational purposes; Offering and conducting contests designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities, and sharing of creative work product; Organizing exhibitions, conferences, and events in the field of software development for educational purposes; Offering and conducting contests for educational and entertainment purposes for software developers; Educational services, namely, organizing and conducting conferences and seminars in the fields of artificial intelligence and the internet of things; Educational services, namely, organizing and conducting conferences, courses, seminars, and online training in the fields of advertising, marketing, social networking, the internet, and social media, and distribution of course material in connection therewith; Organizing, promoting and conducting exhibitions, tradeshows and events for business purposes; Training in the field of design, advertising and communication technologies; Training in the field of strategic media planning relating to advertising, marketing and business; Providing information in the field of entertainment; Providing entertainment information including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and other communications networks; Providing information for educational and entertainment purposes in the fields of entertainment, secondary, and collegiate life, and social and community interest groups; Rental of photography and videography kiosks for capturing, uploading, editing and sharing of pictures and videos; Education; Providing of training; Sporting and cultural activities; Entertainment services, namely, providing online videos featuring games being played by others; Gaming services in the nature of providing a web site for consumers to broadcast game play to others; Arranging and conducting educational conferences in the field of software development; Educational seminars, classes, speaker series, conferences and training in the field of open source software and software development; Entertainment services, namely, ongoing comedy, drama, documentary, docu-series, animated, mystery, and reality web and television series provided over the Internet; Online journals, namely, blogs featuring comedy, drama, documentary, docu-series, animated, mystery, and reality and entertainment content; Providing online non-downloadable video clips, videos, vlogs, images, illustrations, articles, and abstracts of articles in the field of comedy, drama, documentary, docu-series, animated, mystery, and reality entertainment; Providing online non-downloadable videos in the field of comedy, drama, documentary, docu-series, animated, mystery, and reality entertainment; Educational services, namely, providing online publications in the field of social media content; Provision of information relating to social media content; Online electronic publishing concerning social media content; Publication of educational materials, namely, publishing of articles, manuals, journals and blogs in the fields of software development, artificial intelligence, machine learning, and building user interfaces; Arranging and conducting of training workshops; Recreation information; Augmented reality video production; Conduct and providing access to on-line live workouts, fitness instructions and sessions; Conducting fitness classes; Education services; Educational services, namely, conducting seminars, conferences, and workshops in the fields of health and wellness; Educational services, namely, organizing and conducting conferences and seminars in the fields of virtual reality, augmented reality, artificial intelligence and the internet of things; Electronic publishing services; Entertainment and educational services, namely, providing non-downloadable movies, television shows, webcasts, audiovisual, and multimedia works via the internet, as well as information, reviews, and recommendations regarding movies, television shows, webcasts, audiovisual, and multimedia works; Entertainment services, namely, arranging and conducting of competitions for

encouraging use and development of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics, and video game entertainment software and hardware; Entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, participate in sports activities, engage in health-promoting activities, make achievements in exercise and sports activities, and reach personal goals regarding exercise, sports activities, and fitness; Entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, make healthy eating choices, and engage in other health-promoting activities; Entertainment services, namely, incentive award programs designed to reward program participants who exercise; Entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; Entertainment services, namely, providing an online forum for the dissemination of content, data, and information for entertainment and social and business networking purposes; Entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; Entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; Entertainment services, namely, providing online mixed reality environments; Mixed reality video production; Multimedia production services; Online journals, namely blogs featuring commentary, advice and information in the fields of health, wellness, sleep, fitness and nutrition; Online journals, namely, blogs; Online journals, namely, weblogs (blogs) featuring user-defined content; Organizing contest and incentive award programs for software developers; Organizing exhibitions and events for cultural, educational, or entertainment purposes; Organizing exhibitions and events in the field of interactive entertainment, virtual reality, mixed reality, and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; Organizing exhibitions and events in the field of software development for educational purposes; Organizing exhibitions in the field of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics and video game entertainment industries for cultural or educational purposes; Organizing live exhibitions and conferences in the fields of culture, entertainment and social networking for non-business and non-commercial purposes; Personal coaching services in the field of sports, exercise, health, and fitness; Photosharing and video sharing services; Pre-recorded athletic and fitness sessions; Providing a fitness assessment and a fitness score, and a personalized workout program based on that assessment and score; Providing a website featuring fitness coaching, instructions, and sessions; Providing a website featuring fitness instructions and sessions; Providing a website featuring information regarding fitness training, and athletic skill development; Providing a website featuring information regarding fitness training, fitness coaching, fitness goals, and athletic skill development; Providing a website featuring information regarding sports, athletic skill development, and fitness training; Providing a website featuring pre-recorded athletic and fitness sessions; Providing access to pre-recorded athletic and fitness sessions; Providing computer, electronic and online databases in the field of entertainment; Providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; Providing group coaching in the field of sports, exercise, health, and fitness; Providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for gaming consoles, personal computers, personal digital devices, and smart phones; Providing online resources for software developers; Providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an online website, other computer and electronic communication networks, and via computer software for gaming consoles, personal computers, personal digital devices, and smart phones; Publishing services, namely, publishing of electronic publications for others; Virtual reality video production

**Class 42:** Design and development of computer hardware and software; Providing online non-downloadable software; Providing temporary use of non-downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Design, engineering, research, development and testing services in the field of mobile application software development related to the use and functionality of hyperlinks; Technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; Providing temporary use of non-downloadable software that gives users the ability to engage in social networking and manage their social networking content; Computer services, namely, creating an online community for registered users to engage in social networking; Providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered groups within virtual communities; Providing temporary use of non-downloadable software for creating and managing social media profiles and user accounts; Providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; Providing temporary use of non-downloadable software that enables users to transfer personal identity data to and share personal identity data with and among multiple websites; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking and developing software applications; Providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing temporary use of non-downloadable software for finding content and content publishers, and for subscribing to content; Providing temporary use of non-downloadable software for organizing images, video, and audio-visual content using metadata tags; Providing temporary use of non-downloadable software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Providing temporary use of non-downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; Providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; Providing temporary use of non-downloadable software for electronic messaging; Providing temporary use of non-downloadable software to facilitate interactive discussions via communication networks; Providing temporary use of non-downloadable software for organizing events, searching for events, calendaring and managing events; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content; Providing temporary use of

non-downloadable computer software for use in taking and editing photographs and recording and editing videos; Application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of non-downloadable computer software for enabling transmission of images, audio, audio visual and video content and data; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Providing search engines of online network environments to provide information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content, via the internet and communications networks; Application service provider (ASP) services, namely, hosting software applications of others; Providing temporary use of non-downloadable software for providing, linking to, or streaming news or current events information; Providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; Application service provider (ASP) featuring application programming interface (API) software to allow users to perform electronic business transactions via the internet and communication networks; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; Providing temporary use of non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Application service provider (ASP) featuring application programming interface (API) software for creating, managing, tracking, reporting and measuring advertising of others; Providing non-downloadable software for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Providing temporary use of non-downloadable software for creating, sharing, disseminating and posting advertising; Providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; Providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; Providing temporary use of non-downloadable software for curating online user-defined content and advertisements and creating social media feeds; Designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; Development of hardware for use in connection with electronic and interactive multimedia games; Providing temporary use of non-downloadable software that gives users the ability to upload, modify and share virtual reality content, augmented reality content, mixed reality content, information, experiences and data; Hosting of virtual reality and augmented reality content on the internet; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable software for processing electronic payments; Platform as a service (PAAS) services featuring computer software to allow users to perform business and e-commerce transactions; Providing temporary access to non-downloadable computer software for providing electronic maps; Application service provider (ASP) featuring software for providing electronic maps; Providing temporary use of non-downloadable computer software for searching, determining, and sharing locations; Providing temporary use of non-downloadable software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable computer software for making reservations and bookings; Application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; Providing temporary use of non-downloadable software that give users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government agencies; Providing

temporary use of non-downloadable software for providing a virtual marketplace; Providing temporary use of non-downloadable computer software for ordering and/or purchasing goods and services; Application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; Providing temporary use of non-downloadable software for searching and identifying employment opportunities; Providing temporary use of non-downloadable software for identifying and allowing users to contact government representatives; Providing temporary use of non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; Design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; Providing online non-downloadable personal assistant software; Providing non-downloadable social assistant software; Providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing a website featuring information in the fields of technology and software development via the internet and communication networks; Design and development of virtual reality and augmented reality and mixed reality hardware and software; Design and development of video game hardware and software; Software development; Development of interactive multimedia software; Maintenance and repair of computer software; Computer services, namely, cloud hosting provider services; Providing temporary use of online non-downloadable cloud computing software for use in electronic storage of data; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; File sharing services, namely, providing temporary use of non-downloadable featuring technology enabling users to upload and download electronic files; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; Data encryption services; Encrypted electronic transmission and delivery of recovered data; Providing temporary use of online non-downloadable software and applications for customer relationship management (CRM); Application service provider (ASP) featuring software for customer relationship management (CRM); Computer services, in particular, application service provider featuring application programming interface (API) software for customer relationship management (CRM); Providing temporary use of non-downloadable software for facilitating and arranging fundraising and the distribution of fundraising donations; Providing temporary use of non-downloadable software for online charitable fundraising services and donation services; Scientific and technological services and research and design relating thereto; Industrial analysis and research services; Computer hardware and software design, development, installation and maintenance; Research services and consulting in the field of information and telecommunications technology; Design of telecommunications apparatus and equipment; Consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; Providing online software platform featuring technology that enables online users to make payments and transfer funds; Providing online software platform featuring technology that enables online users to make payments and funds transfers across multiple websites and mobile applications; Computer services, namely, application services provider featuring application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Software as a services (SAAS) services featuring software for facilitating e-commerce transactions via the internet and communications networks; Application service provider featuring an

application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; Providing temporary use of non-downloadable software for converting natural language into machine-executable commands; Analyzing and evaluating social media content; Developing standards for third-party social media content; Conducting proceedings relating to standards concerning third-party social media content; Content moderation and supervision; Web publishing, namely, publishing of decisions concerning third-party social media content; Providing temporary use of non-downloadable computer software in the nature of a query engine; Providing temporary use of non-downloadable computer software for use in performing queries on large amounts of data; Providing temporary use of non-downloadable computer software in the nature of a query engine functioning across business intelligence (BI) tools; Providing temporary use of online non-downloadable artificial intelligence software for facilitating machine learning software; Application service provider (ASP) featuring software to enable or facilitate machine learning software; Providing temporary use of online non-downloadable software for machine learning; Providing temporary use of online non-downloadable software tools for software development; Providing temporary use of online non-downloadable software for building user interfaces; Application service provider (ASP) featuring software to enable or facilitate user interface building software; Electronic data storage; Electronic storage of photographs; Interactive hosting services which allow the users to publish and share their own content and images online; Providing online non-downloadable software for database management; Computer network services; Providing temporary use of non-downloadable software for opinion polling; Providing software allowing users to post questions with answer options; Platform as a service (PAAS) services featuring technology that allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; Providing temporary use of non-downloadable software featuring technology that allows users to manage their business networking accounts; Providing temporary use of non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring computer software platforms for personal assistant software; Platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; Platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; Software as a service (SAAS) featuring computer software for personal information management; Providing temporary use of non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for use to connect and control internet of things (iot) electronic devices; Software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (iot) electronic devices; Software as a service (SAAS) featuring computer software for use as an application programming interface (API); Design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; Technical support and consultation services for developing applications; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; Providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; Technological services, namely, data warehousing services; Application service provider (asp), namely, hosting computer software applications through the internet of others; Consultation services relating to programming of multimedia application management, computer programming, hardware, software, and computer system design and specification; Software as a service (SAAS) services, namely, hosting software for use by others for use providing an online database featuring a wide range

of general interest information via the internet; Providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; Technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; Computer, mobile computer, and mobile communication device hardware and software consultation and design; Providing temporary use of non-downloadable computer software that enables users to access and download computer software; Providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; Application service provider (ASP) featuring application programming interface (API) software for the streaming, storage, and sharing of video games, content, data and information; Computer software development in the field of mobile applications; Providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; Computer services; IT services; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; Application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; Application service provider services featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network; Application service provider (ASP) featuring software to enable or facilitate purchasing goods and services; Software as a service (SAAS) services; Platform as a service (PAAS) services; Providing temporary use of non-downloadable cloud computing software; Providing distributed ledger technology; Providing temporary use of non-downloadable software which facilitates the ability of users to view, analyze, record, store, monitor, and manage digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Providing temporary use of non-downloadable software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Providing temporary use of non-downloadable software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; Providing temporary use of non-downloadable software for processing electronic payments and for transferring funds to and from others; Providing electronic financial platform software; Providing software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Providing temporary use of non-downloadable software for use in financial trading; Providing temporary use of non-downloadable software for use in financial exchange; Providing temporary use of non-downloadable software for use in accessing financial information and market data and trends; Electronic data storage services; Providing temporary use of non-downloadable software for electronic funds transfer; Providing temporary use of non-downloadable software for currency conversion; Providing temporary use of non-downloadable software for the collection and distribution of data; Providing temporary use of non-downloadable software for payment transactions; Providing temporary use of non-downloadable software for connecting computers to local databases and global computer networks; Providing temporary use of non-downloadable software for creating searchable databases of information and data; Providing temporary use of non-downloadable software for creating and managing smart contracts; Providing temporary use of non-downloadable software for managing payment and exchange transactions; Providing temporary use of non-downloadable software for use in enabling the electronic transfer of funds to and from others; Providing temporary use of non-downloadable software for creating a

decentralized and open source cryptocurrency for use in blockchain-based transactions; Providing temporary use of non-downloadable software for encrypting and enabling secure transmission of digital information over the Internet, as well as over other modes of communication between computing devices; Distributed ledger platform software for use in processing financial transactions; Providing temporary use of non-downloadable software for electronic funds transfer and currency conversion; Software as a service (SAAS) featuring computer software platforms for the selling and purchasing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Computer services, namely, creating an on-line virtual environment for the selling and purchasing of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Platform as a service (PAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Software as a service (SAAS) featuring computer software platforms for managing blockchain and token driven, distributed storage computer systems; Computer services, namely, providing secure, private encrypted cloud storage services; Computer services, namely, providing open source decentralized cloud storage platform; Data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; Data mining; Providing temporary use of non-downloadable software for use with blockchain technology; Platform as a service (PAAS) services featuring software for clearing, allocation, compliance, recordation and settlement of trading related to digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; distributed computing software platforms for auditing and verifying digital information and codes; Design, development and implementation of audit and security software for blockchain-based platforms; Providing temporary use of non-downloadable software for use in facilitating secure transactions; Design, development, and implementation of software for distributed computing platforms; Design, development, and implementation of software for blockchain; Platform as a service (PAAS) featuring computer software platforms for computer system and application development, deployment, and management; Software as a service (SAAS) featuring computer software platforms for computer system and application development, deployment, and management; Providing temporary use of non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; Providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; Providing temporary use of non-downloadable software for use in the exchange of virtual items; Providing a digital exchange; Application service provider (ASP); Application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; Application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Application service provider (ASP) featuring software for mapping services; Application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; Application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider (ASP) featuring software to enable or facilitate social and destination mapping; Application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Application service provider (ASP) services; Application service provider (ASP) services featuring software for controlling, integrating, operating, connecting,

and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; Application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Application service provider (ASP), namely, remote hosting of computer applications of others; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; Application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; Computer consulting, computer programming; Computer hardware and software consultation and design; Computer hardware, software, application, and network consulting services; Computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; Computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; Computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; Computer services, namely, curating online user-defined content and advertisements and creating social media feeds; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing information in the fields of technology and software development via the internet; Computer software development; Creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; Creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; Design and development of augmented reality hardware and software; Design and development of computer hardware and computer software; Design and development of interactive multimedia software; Design and development of mixed reality hardware and software; Design and development of virtual reality hardware and software; File sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; Hosting of digital content on the internet; Mapping services; Mobile computer and mobile communications device hardware and software consultation and design; Mobile computer and mobile communications device software design for others; Non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; Non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Non-downloadable computer software for social and destination mapping; Non-downloadable computer software for tracking fitness, health and wellness goals and statistics; Non-downloadable software for creating personalized fitness training programs; Non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Non-downloadable software for ordering and/or purchasing goods and services; Non-downloadable

software for processing electronic payments; Non-downloadable software for providing a virtual marketplace; Non-downloadable software for providing personal training services, workouts and fitness assessments; Non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; Non-downloadable software for streaming multimedia entertainment content; Non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Online non-downloadable cloud computing software for use in electronic storage of data; Online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; Online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; Platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; Platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; Platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; Platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; Provide an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; Provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones; Providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; Providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; Providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; Providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; Providing internet search engines; Providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; Providing online facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; Providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; Providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; Providing personal assistant software; Providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; Providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data,

files, documents, and electronic works; Providing social assistant software; Providing software for facilitating and arranging for the financing and distribution of fundraising and donations; Providing software for online charitable fundraising services and financial donation services; Providing temporary access to non-downloadable computer software for mapping services; Providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; Providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; Providing temporary use of non-downloadable computer software for social and destination mapping; Providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; Providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; Providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; Providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; Providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing temporary use of non-downloadable software applications for providing location-based weather information; Providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; Providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing temporary use of non-downloadable software for streaming multimedia entertainment content; Providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; Providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; Providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; Provision of Internet search engine services; Rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; Software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content, games, and software applications, software application marketplaces; Software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; Software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; Software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; Software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; Software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; Software as a service (SAAS) services

featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; Software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; Software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; Software for electronic messaging; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Technological services, namely, data warehousing services

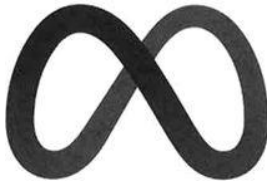

**Class 45:** Online social networking and dating services; Social networking, social introduction and dating services provided via access to computer databases and online searchable databases in the fields of social networking, social introduction and dating; Providing information in the fields of social networking and social introduction; Providing social networking services, namely, the provision of information in the field of personal development, self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community services, and humanitarian activities; Providing concierge services for others to meet the needs of individuals, namely, booking reservations, facilitating personal purchases, arranging personal deliveries, making requested personal arrangements, providing recommendations on products and services, providing customer-specific information to meet individual needs; Legal services; Reviewing standards and practices relating to social media content; Compliance consulting in the field of social media; Consulting services in the field of online social networking and social media services; Authentication services; Online social investment network in the nature of an on-line social networking services in the field of investments; Providing a website featuring information on the development of privacy, security, blockchain and distributed ledger technologies, and data governance law; Business identification verification services; Identification verification services; Online social networking services; Personal concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs; Providing access to computer databases and online searchable databases in the fields of social networking, social introduction and dating; Social introduction and networking and dating services; Social networking services related to sports, fitness, and coaching activities provided through a community website online and other computer and electronic communication networks; User verification services

**Specification of goods/services:**

**Class 9:** Downloadable software in the nature of a mobile application; computer hardware; downloadable software for social networking and creating and interacting with online communities; software development tools; downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; downloadable software for use as an application programming interface (API); downloadable software for organizing events, searching for events, calendaring and managing events; downloadable software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; downloadable computer software for finding content and content publishers, and for subscribing to content; downloadable software for creating and managing social media profiles and user accounts; interactive photo and video equipment, namely, kiosks for capturing, uploading, editing, printing and sharing digital images and video; downloadable software for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data; downloadable software for enabling transmission of images, audio, audio visual and video content and data; downloadable software for modifying photographs, images and audio, video, and audio-visual content; downloadable software for use in taking and editing photographs and recording and editing videos; downloadable software for processing images, graphics, audio, video, and text; downloadable software for collecting, managing, organizing, synchronizing, and the storage of data and information; downloadable e-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; downloadable software and mobile application software providing a virtual marketplace; downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; downloadable software for file sharing; downloadable messaging software; computer search engine software; downloadable software for use in creating, managing, measuring, and disseminating advertising of others; advertisement server, namely, a computer server for storing advertisements and delivering advertisements to websites; downloadable software for creating, sharing, disseminating and posting advertising; downloadable software for geo-location based advertising and product and service promotion; downloadable software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; downloadable virtual reality software; downloadable augmented reality software; downloadable mixed reality software; virtual reality software for interactive entertainment and virtual reality gaming; augmented reality software for interactive entertainment and augmented reality gaming; downloadable software for integrating electronic data with real world

environments for the purposes of entertainment, education, gaming, communicating, and social networking; downloadable software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; downloadable software for operating, configuring, and managing virtual reality headsets and controllers; downloadable software for gesture recognition, object tracking, motion control, and content visualization; software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; downloadable software for navigating a virtual reality and augmented reality environments; downloadable software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; downloadable software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; downloadable software for use in creating and designing virtual reality and augmented reality software; application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; virtual reality game computer hardware; augmented reality game computer hardware; mixed reality game computer hardware; virtual reality computer hardware; augmented reality computer hardware; motion tracking sensors for virtual reality and augmented reality technology; virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; hardware and software for operating sensor devices; electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; hardware and software for detecting objects, user gestures and commands; downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; computer software for controlling the operation of audio and video devices; video display software; downloadable software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; downloadable software for converting natural language into machine-executable commands; downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; downloadable software, namely, an interpretive interface for facilitating interaction between humans and machines; artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; downloadable virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; downloadable software for providing consumer information; downloadable software for providing electronic maps; location-aware downloadable software for searching, determining, and sharing locations; downloadable software for searching and identifying employment opportunities; downloadable software for identifying and allowing users to contact government representatives; Downloadable software providing location-based weather information; Downloadable software providing, linking to, or streaming news or current events information; parental control software; computer software; computer operating systems; Downloadable software for enabling electronic devices to share data and communicate with each other; computer peripheral devices; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; digital media streaming devices; headsets and headphones; video display hardware, namely, video drivers for video eyewear; cameras; batteries; battery cases; battery packs; rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; battery chargers; rechargeable external

battery packs for use with mobile electronic devices; power charging and power management devices for mobile electronic devices; charging stands for mobile electronic devices; external chargers for use with computers, tablet computers, mobile devices and mobile telephones; wireless charging cases for use with computers, tablet computers, mobile devices and mobile telephones; power adapters; electrical adapters, cable, and connectors; bags and cases specially adapted for mobile electronic devices; protective covers and cases for mobile electronic devices; holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; wall mounts for mounting mobile electronic devices; stands for mobile electronic devices; holders for mobile electronic devices; remote controls for mobile electronic devices; audio speakers; electrical audio and speaker cables and connectors; electronic cables parts and fittings; electronic cables; cables for optical signal transmission; power cables and cable connectors; microphones; audio receivers; audio transmitters; head-mounted video display; receivers of electronic signals; video receivers; wireless transmitters and receivers for reproduction of sound and signals; electric sensors; sensors for monitoring physical movements; sim cards; downloadable software for use in customer relationship management (CRM); downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; Downloadable software for online charitable fundraising services and financial donation services; downloadable software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks and gateways for collection, transmission and management of data, voice and video; communication software and communication computer hardware for providing access to the internet; telecommunications equipment; radio receivers and transmitters; GPS receivers; downloadable software to allow users to perform e-commerce transactions via the internet and communications networks; downloadable computer software that allows users to make payments and transfer funds; downloadable computer software that enables online users to make payments and transfer funds across multiple websites and mobile applications; downloadable computer software for processing electronic payments; computer software in the nature of a query engine; downloadable software for facilitating machine learning; downloadable software for building user interfaces; Downloadable electronic publications; downloadable software for opinion polling; downloadable software allowing users to post questions with answer options; interactive photo and video equipment, namely, kiosks computer hardware for capturing, uploading, editing, printing and sharing digital images and video; downloadable software for the synchronization of data between a remote station or device and a fixed or remote station or device; voice command and recognition software, speech to text conversion software; voice-enabled software applications for personal information management; home automation and home device integration software; wireless communication software for voice, audio, video, and data transmission; downloadable software used for controlling stand-alone voice controlled information and personal assistant devices; downloadable software for voice recognition for use in connection with the transmission of voice and data; downloadable software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, and software application marketplaces; downloadable software for use to connect and control internet of things (iot) electronic devices; computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-

connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; downloadable software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; downloadable software, for personalized, interactive television (tv) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data; downloadable software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers or other portable consumer electronic devices; downloadable software for searching television entertainment exploration guides; Downloadable software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; downloadable software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; downloadable software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; electronic notepads; electronic personal organizers; electronic voice recording and voice recognition apparatus; portable digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; wearable computer hardware; wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; downloadable software for accessing, browsing and searching online databases; downloadable software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; downloadable software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; apparatus for recording, transmission or reproduction of sound or images; apparatus for transmission of communication; apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; blockchain; blockchain software; downloadable software in the field of blockchain; computer programs and downloadable computer application software for electronic storage of data; downloadable software for electronic wallet services; downloadable e-wallets; distributed ledger platform software; software for use with distributed ledger technology; downloadable software for implementing and recording financial transactions; downloadable software for use in financial trading; downloadable software for use in financial exchange; downloadable software for accessing financial information and market data and trends; downloadable software for providing authentication of parties to a financial transaction; downloadable software for maintaining ledgers for financial transactions; downloadable software for encrypting and enabling secure transmission of digital information over the internet; downloadable software for allowing users to calculate parameters related to financial transactions; downloadable software for electronic funds transfer; downloadable software for currency conversion; downloadable software for the collection and distribution of data; downloadable software for payment transactions; downloadable software for connecting computers to local databases and global computer networks; Downloadable software for creating searchable databases of information and data; downloadable

software for creating and managing smart contracts; downloadable software for managing payment and exchange transactions; downloadable software for use in an electronic financial platform; Downloadable software for processing electronic payments and for transferring funds to and from others; blockchain platform software; downloadable software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; electronic currency converters; Downloadable software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; Downloadable software for use as an application program interface (API) software for use in computer hardware device identification; Downloadable software for use in authenticating user access to computers and computer networks; Downloadable software for use in facilitating secure transactions; Downloadable software for use in accessing, reading, tracking, and using blockchain technology; Downloadable software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; Downloadable software for network identification verification, authentication and management services for security purposes; Downloadable authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards; encryption devices; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; altimeters; application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; application programming interface (API) for software which facilitates online services for social networking and for data retrieval, upload, download, access and management; application programming interface (API) for use in building software applications; augmented reality glasses; augmented reality headsets; augmented reality software; augmented reality software for interactive entertainment; augmented reality software for navigating an augmented reality environment; augmented reality software for object tracking, motion control and content visualization; augmented reality software for operating augmented reality headsets; augmented reality software for users to experience augmented reality visualization, manipulation and immersion; cables, namely, electronic cables and connection cables; cases, straps, wrist and arm bands for electronic monitoring devices; computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; computer hardware for displaying data and video; computer hardware for use in measuring heart rhythm; computer hardware for use in taking electrocardiograms; computer operating system software; computer peripheral equipment for use with smartwatches, namely, smartwatch bands and smartwatch straps; computer peripherals for displaying data and video; computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; computer peripherals for remotely accessing and transmitting data; computer software and computer application software for mobile phones and personal digital devices that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software and computer application software for mobile phones and personal digital devices that monitor, track, and

compare sport activity and fitness level; computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; computer software development tools; computer software for accessing, browsing and searching online databases; computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; computer software for creating, managing, and interacting with an online community; computer software for fitness and weight management; computer software for fitness, fitness assessments, and sport activities; computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (ar) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; computer software for processing images, graphics, audio, video, and text; computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; computer software for sending and receiving electronic messages, alerts, notifications and reminders; computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; computer software for social networking and interacting with online communities; computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; computer software for the redirection of messages, internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server;

computer software for tracking and managing information regarding health, fitness, and wellness programs; computer software for use as an application programming interface (API); computer software for use in creating, managing, measuring, and disseminating advertising of others; computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; computer software for wireless content, data and information delivery; computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; computer software that monitor, track, and compare sport activity and fitness level; computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; computer software, Downloadable computer software and mobile application software for creating, managing and accessing groups within virtual communities; computer software, namely, an application providing social networking functionalities; computer software, namely, an interpretive interface for facilitating interaction between humans and machines; computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; computers, namely, smartwatches; connection cables; digital video eyewear; digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the cpu, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images,

and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, Downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; electric cables; electrical adapters; electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global positioning, direction, distance, altitude, navigational and weather information; electronic navigational instruments and apparatus; fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; gesture recognition software; glasses with the function of wireless communication; global positioning system (GPS) devices; goggles for enabling virtual reality, augmented reality and mixed reality world experiences; hardware and software to view virtual images in creating virtual, augmented and mixed reality; head mounted video display; head-mounted display screen devices and their component parts, namely, video display cards; headsets; headsets for use with computers; interactive entertainment software; interface electronics, namely, video driver interface circuits for digital video eyewear; location-aware computer software, Downloadable computer software and mobile application software for searching, determining and sharing locations; loudspeakers; messaging software; microdisplays, namely, head mounted video displays and near eye video displays; mixed reality computer hardware; mixed reality glasses; mixed reality headsets; mixed reality software; mixed reality software for interactive entertainment; mixed reality software for navigating a mixed reality environment; mixed reality software for object tracking, motion control and content visualization; mixed reality software for operating mixed reality headsets; mixed reality software for users to experience mixed reality visualization, manipulation and immersion; mobile application software for creating personalized fitness training programs; motion tracking sensors for augmented reality technology; motion tracking sensors for mixed reality technology; motion tracking sensors for virtual reality technology; multifunctional electronic devices for displaying, measuring, and uploading to the internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; multifunctional electronic devices for displaying, measuring, and uploading to the internet information including time, date, heart rate, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, quality of sleep, and silent wake alarm; near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; near eye display systems comprised of GPS sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; near eye display systems comprising computer hardware, electronic display interfaces, and software specifically adapted for

goggles; near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; near eye displays; network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; pedometers; peripherals for mobile devices, namely, pedometers and altimeters; personal assistant software; personal digital assistants; personal electronic devices used to track fitness goals and statistics; personal fitness trackers; personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; personal video display screens; portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; remote control apparatus for wearable computer hardware and smartwatches; sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; smart glasses; smart glasses with wired and wireless audio capability; smartwatch bands; smartwatch straps; smartwatches; social assistant software; software and firmware for controlling, configuring and managing controllers; software and firmware for displaying video games and electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; software and firmware for operating system programs; software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; software and firmware for enabling electronic devices to share data and communicate with each other; software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; software for advertisers to communicate and interact with online communities; software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; software for converting natural language into machine-executable commands; software for creating and managing social media profiles and user accounts; software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; software for creating, managing and accessing groups within virtual communities; software for creating, managing, and interacting with an online community; software for facilitating and arranging for the financing and distribution of fundraising and donations; software for generating images to be displayed in near-eye display system; software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for online charitable fundraising services and financial donation services; software for ordering and/or purchasing goods and services; software for organizing, searching for and managing events; software for planning activities with other users, making recommendations; software for processing images, graphics, audio, video, and text; software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; software for smart phones and other computer systems to receive data from near-eye display systems; software for social and destination mapping; software for social networking; software for streaming multimedia entertainment content; software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; software for use as an application

programming interface (API); software for use in creating and designing virtual reality, augmented reality and mixed reality software; software for wireless content, data and information delivery; software in the nature of a mobile application; software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; software, namely, an interpretive interface for facilitating interaction between humans and machines; telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; virtual reality glasses; virtual reality headsets; virtual reality software; virtual reality software for interactive entertainment; virtual reality software for navigating a virtual reality environment; virtual reality software for object tracking, motion control and content visualization; virtual reality software for operating virtual reality headsets; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through internet websites and other computer and electronic communication networks; waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; wearable activity trackers; wearable computer peripherals; wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; wearable digital electronic devices, namely, glasses, goggles, and headsets; wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through internet websites and other computer and electronic communication networks; wearable peripherals for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; wireless computer peripherals

**Class 28:** Virtual reality headsets for playing video games for connection to computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile phones in order to enable virtual reality experiences; electronic and interactive multimedia game consoles; video game interactive remote control units; wearable peripherals for playing video games specially adapted for computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones; game controllers for computer games; audio and visual headsets for use in playing video games; hand-held units for playing electronic, computer, interactive, and video games; gaming devices, mobile gaming devices, namely, gaming machines with or without video output for playing computer games and video games; computer game consoles for use with an external display screen or monitor; apparatus for electronic games other than those adapted for use with an external display screen or monitor; apparatus for electronic games adapted for use with an external display screen or monitor; bags specially adapted for handheld video games and video game consoles; computer and video game joysticks; computer gaming consoles for recreational game playing; fitted plastic films known as skins for covering and protecting electronic game playing apparatus, namely, video game consoles and hand-held video game units; game controllers in the nature of keyboards for computer games; games adapted for use with television receivers; gaming headsets adapted for use in playing video games; hand held joy stick units for playing video games; handheld game consoles;

hand-held electronic games adapted for use with television receivers only; hand-held games with liquid crystal displays; hand-held units for playing electronic games for use with external display screen or monitor; home video game machines; LCD game machines; player-operated electronic controllers for electronic video game machines; protective carrying cases specially adapted for handheld video games and video game consoles; standalone video game machine; stands for electronic game playing apparatus, namely, video game consoles and hand-held video game units; tabletop units for playing electronic games other than in conjunction with a television or computer; video game interactive hand held remote controls for playing electronic games; controllers for game consoles; arcade video game machines; video game consoles; games and playthings; gymnastic and sporting articles not included in other classes; decorations for Christmas trees; body-building apparatus; body-training apparatus; body-training equipment; equipment for sports and games; exercise machines.

**Class 35:** Advertising services; advertising via electronic media; dissemination of advertising for others via a global computer network; business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; advertising services, namely, advertising campaign management, targeting, implementation and optimization services; preparation and realization of media and advertising plans and concepts; design of advertising materials for others; advertising services, namely, media planning and media buying for others, brand evaluation and brand positioning services for others, and advertising procurement services for others; ad serving, namely, placing advertisements on websites for others; advertising, marketing and promoting the goods and services of others by means of providing photo and video equipment at special events; organizing exhibitions and events in the field of software and hardware development for commercial or advertising purposes; advertising services, namely, providing classified advertising space via the internet and other communication networks; compiling of data in online computer databases and online searchable databases in the field of classifieds; promoting the goods and services of others via computer and communication networks; promoting the goods and services of others by means of distributing video advertising on via the internet and other communications networks; providing promotional events via live streaming video; marketing and promotion services; consulting services in the fields of advertising and marketing; business assistance and consulting services; business consultation regarding marketing activities; brand strategy consulting services; business consultation in the field of telecommunications; business management consulting services to enable business entities, non-governmental organizations and non-profit organizations to develop, organize, and administer programs to offer greater access to global communications networks; business networking services; employment consultancy and recruiting services; promoting sales for others by facilitating pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; advertising services for promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; providing contest and incentive award programs for marketing and advertising purposes to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; business consultancy services for professionals and businesses in the field of mobile software application development; organizing, promoting, arranging and conducting special events, exhibitions, and tradeshow for commercial, promotional or advertising purposes; organizing and conducting events, exhibitions, expositions and conferences for commercial purposes in the interactive entertainment, virtual reality, consumer electronics and video game entertainment industries; online retail store services featuring virtual reality and augmented reality hardware and software; online retail store services featuring virtual reality content and digital media namely, pre-recorded music, video, images, text, audiovisual works and virtual and augmented reality game

software; providing online marketplaces for sellers of goods and/or services; business intermediary services in the nature of facilitating the exchange and sale of services and products of third parties via computer and communication networks; connecting buyers and sellers via an online network environment; promotional services, namely, providing electronic catalog services; providing telephone directory information via global communications networks; business assistance services, namely, customer relationship management; providing commercial information, namely, user comments concerning business organizations, service providers, and other resources; marketing research, namely, advertising campaign and consumer preferences research and analysis; market research services; provision of market research and information services; business information management, namely, reporting of business information and business analytics in the fields of advertising and marketing; business management; business administration, office functions; compiling online business directories featuring the businesses, products and services of others; promoting the public interest and awareness of issues involving access to the internet for the global population; association services, namely, promoting the adoption, acceptance and development of open source computer technologies; organizing business networking events in the field of open source software; promoting voluntary common industry standards for software development and execution; arranging and conducting business conferences; arranging and conducting business conferences in the field of programming language development and use; conducting business investigations in the field of social media; consulting services in the field of evaluating social media content; consulting services in the field of social media policies and regulations; marketing, advertising and promotion services; business and advertising services; market intelligence services; providing a website featuring an online marketplace for selling and trading virtual goods with other users; online trading services; arranging and conducting special events for business purposes; blockchain as a service, namely, business advice and information in the field of blockchain technology; provision of electronic reminders and notifications; advertising and information distribution services, namely, providing classified advertising space via the internet and communications networks; advertising services, namely, targeting and optimization of online advertising; arranging and conducting special events for commercial, promotional or advertising purposes; association services that promote the interests of professionals and businesses in the field of mobile software application development; brand consulting; business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; business and advertising services, namely, media planning and media buying for others; procurement services for others, namely, purchasing goods and service for other businesses; business networking; charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; consulting services in the fields of advertising and marketing, namely, customizing advertising and marketing efforts of others; dissemination of advertising for others via the internet and communication networks; employment and recruiting services; facilitating the exchange and sale of services and products of third parties via computer and communication networks; marketing, advertising and promotion services, namely, providing information regarding discounts, coupons, rebates, vouchers, links to retail websites of others, and special offers for the goods and services of others; online advertising and promoting the goods and services of others via the internet; online retail store services featuring virtual reality, mixed reality and augmented reality headsets, games, content and digital media; online retail store services in relation to electronic wearable fitness devices, personal weighing scales, wearable activity trackers, fitness and sports apparel, and accessories for the aforesaid goods; organizing, promoting and conducting exhibitions, tradeshow and events for business purposes; promoting the goods and services of others by means of distributing video advertising on the internet and communication networks; promoting the goods and services of others via the internet and communication networks; providing online business directories featuring the businesses, products and services of others; providing online facilities for connecting sellers with buyers; providing online

facilities for live streaming video of promotional events; providing online facilities for connecting sellers with buyers; retail and online retail services for software, electronic devices and footwear incorporating sensors that allow consumers to engage in virtual athletic competitions and individual and group fitness classes; retail and online retail store services that allow consumers to engage in fitness coaching, virtual athletic competitions, and individual and group fitness classes; retail store services in relation to electronic wearable fitness devices, personal weighing scales, wearable activity trackers, fitness and sports apparel, and accessories for the aforesaid goods.

**Class 36:** 36 Financial transaction processing services, namely, providing secure electronic transactions and payment options; electronic processing of bill payment data for users of the internet and communication networks; payment transaction processing services; electronic funds transfer services; electronic credit card, debit card, and gift card transaction processing services; providing electronic mobile payment services for others; financial services; payment processing services; financial transaction services; facilitating and arranging fundraising and the distribution of fundraising donations; charitable services, namely, coordination of the procurement and distribution of monetary donations from individuals and companies to third-parties; providing bill payment services via electronic mobile applications; live streaming content, and video on demand content via the internet and communications networks; financial exchange; electronic mobile payment services for others; Digifinancial affairs, namely, financial management, financial planning, financial forecasting, financial portfolio management and financial analysis and consultation; financial information provided by electronic means; brokerage services; dealer services; currency dealing services; bill payment services provided via an electronic wallet; electronic banking services via a global computer network; currency trading; electronic payment services involving electronic processing and subsequent transmission of bill payment data; facilitating transfers of electronic cash equivalents; news reporting services in the field of financial news; electronic payment services; currency management services; currency transfer services; providing electronic processing and tracking of electronic funds transfers; currency exchange services; investment management services; custodial services for financial institutions and funds; monetary exchange; clearing and reconciling financial transactions; financial information services; electronic financial trading services; electronic financial trading, namely, trading of the field of digitized assets; providing information in the fields of investment and finance over computer networks and global communication network; electronic trading of financial instruments; electronic commerce payment services; electronic processing and transmission of bill payment data for users of internet and communications networks; financial transaction processing services, namely, providing secure commercial transactions and payment options; communications networks; merchant services, namely, payment transaction processing services; pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services

**Class 38:** Telecommunications; telecommunications services, namely, electronic transmission of electronic media, data, messages, graphics, images, photos, videos, audio visual content and files; telecommunication services, namely, data transmission and reception services via telecommunication networks; telecommunications and peer-to-peer network computer services, namely, electronic transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; photo, video, and data sharing services, namely, electronic transmission of digital photo files, videos, and audio visual content among internet users; telecommunication services, namely, electronic exchange of voice, data, audio, video, text and graphics accessible via the internet and other communications networks; providing access to computer, electronic and online databases; providing access to computer databases in the fields of social networking and social introduction and dating; providing online forums for communication on

topics of general interest; providing online chat rooms, instant messaging services, and electronic bulletin boards; chatroom services for social networking; providing online communications links which transfer mobile device and internet users to other webpages; facilitating access to third party websites or to other electronic third party content via a universal login; audio, text and video broadcasting services over the internet or other communications network; voice over internet protocol (VOIP) service; telephony communication services; mobile phone communication services; video conferencing services; providing facilities and equipment for video conferencing; audio and visual teleconferencing services; streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; providing an online community forum for users to share and stream information, audio, video, real-time news, entertainment content, or information, to form virtual communities, and to engage in social networking; telecommunications services, namely, electronic transmission of virtual reality content and data; computer services, namely, providing technical support services regarding the usage of communications equipment; web messaging services; instant messaging services; encrypted electronic transmission and delivery of recovered data; provision of access to telecommunication networks and the internet; providing internet connectivity; providing information about telecommunication; consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks; internet service provider services; internet broadcasting services; telecommunications services, namely, providing internet access via broadband networks; streaming and live streaming of audio, visual and audiovisual gaming content via a global computer network; entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; photosharing and video sharing services; audio, text and video broadcasting services over the internet and other communications networks; electronic exchange of voice, data, audio, video, text and graphics via the internet and telecommunications networks; peer-to-peer photo and data sharing services, namely, electronic transmission of digital photo files, graphics and audio content among internet users; photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content among internet users; providing a forum, chat rooms, and electronic bulletin boards for registered users for transmission of messages and sharing information regarding health and fitness, sport activities, and social networking via an online website and other computer and electronic communication networks; providing a website featuring information regarding sports, fitness training, and athletic skill development; providing an on-line forum for registered users for sharing information regarding personal activities, fitness, and social networking; providing an online forum for registered users for sharing information regarding fitness, sport activities, fitness goals, fitness training and coaching, and social networking via an online website and other computer and electronic communication networks; providing an on-line forum, chat rooms, and electronic bulletin boards for registered users for transmission of messages and sharing information regarding nutrition, personal activities, health and fitness, classifieds, and social networking; providing electronic bulletin boards for transmission of messages among users in the field of general interest; providing online communications links which transfer mobile device and internet users to other local and global online locations; providing online forums for communication, namely, transmission on topics of general interest; providing technical support services regarding the usage of communications equipment; streaming of audio and video material related to athletic activities on the internet and other computer and electronic communication networks; telecommunication services; telecommunications services, namely, electronic transmission of data, messages, graphics, photographs, images, audio, video, audio-visual content, and information; telecommunications services, namely, electronic transmission of virtual, mixed and augmented reality content and data; teleconferencing; voice over internet protocol (VOIP) services.

**Class 41:** Entertainment services; electronic publishing services for others; publication of educational materials, namely, publishing of books, journals, newsletters, and electronic publications; publication of non-downloadable online journals, namely, weblogs (blogs) featuring user-defined content, blogs featuring advertising, marketing and business content, and blogs about virtual reality and augmented reality; providing online non-downloadable electronic publications resources for software developers; entertainment and educational services, namely, providing online non-downloadable publications about virtual reality technology via a website; entertainment and educational services, namely, providing online non-downloadable publications about augmented reality technology via a website; entertainment services, namely, providing interactive and multiplayer and single player games played via the internet or communication networks; entertainment services, namely, providing online video games, computer games, electronic games, and interactive games; providing a computer game for use network-wide by network users; providing online non-downloadable game software; virtual reality game services provided via the internet and other communications networks; augmented reality game services provided via the internet and other communications networks; entertainment services, namely, providing virtual reality games, interactive entertainment and virtual reality content and experiences; entertainment services, namely, providing augmented reality games, interactive entertainment and augmented reality content and experiences; entertainment services, namely, providing mixed reality games, interactive entertainment and mixed reality content and experiences; entertainment services, namely, providing online virtual reality environments; entertainment services, namely, providing online augmented reality environments; augmented reality video production for entertainment purposes; virtual reality video production for entertainment purposes; multimedia entertainment production and publishing services; entertainment services in the nature of production and post-production services of multimedia entertainment content; entertainment and educational services, namely, providing non-downloadable movies, television shows, webcasts, audiovisual, and multimedia works via the internet, as well as information, reviews, and recommendations regarding movies, television shows, webcasts, audiovisual, and multimedia works; providing information about online computer games and video games via the internet and other communications networks; arranging and conducting educational conferences; organizing exhibitions, events, and conferences in the fields of culture, entertainment, education, and social networking for non-business and non-commercial purposes; arranging and conducting competitions and entertainment events for players of video, computer, electronic or interactive multimedia games; entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, consumer electronics, and video game entertainment software and hardware; organizing exhibitions in the field of interactive entertainment, virtual reality, consumer electronics and video game entertainment industries for cultural or educational purposes; offering and conducting contests designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community service and humanitarian activities, and sharing of creative work product; organizing exhibitions, conferences, and events in the field of software development for educational purposes; offering and conducting contests for educational and entertainment purposes for software developers; educational services, namely, organizing and conducting conferences and seminars in the fields of artificial intelligence and the internet of things; educational services, namely, organizing and conducting conferences, courses, seminars, and online training in the fields of advertising, marketing, social networking, the internet, and social media, and distribution of course material in connection therewith; organizing, promoting and conducting exhibitions, tradeshow and events for business purposes; training in the field of design, advertising and communication technologies; training in the field of strategic media planning relating to advertising, marketing and business; providing information in the field of entertainment; providing entertainment information including text, electronic documents, databases, graphics, photographic images and audio visual information, via the

internet and other communications networks; providing information for educational and entertainment purposes in the fields of entertainment, secondary, and collegiate life, and social and community interest groups; rental of photography and videography kiosks for capturing, uploading, editing and sharing of pictures and videos; education; providing of training; sporting and cultural activities; entertainment services, namely, providing online videos featuring games being played by others; gaming services in the nature of providing a web site for consumers to broadcast game play to others; arranging and conducting educational conferences in the field of software development; educational seminars, classes, speaker series, conferences and training in the field of open source software and software development; entertainment services, namely, ongoing comedy, drama, documentary, docu-series, animated, mystery, and reality web and television series provided over the internet; online journals, namely, blogs featuring comedy, drama, documentary, docu-series, animated, mystery, and reality and entertainment content; providing online non-downloadable video clips, videos, vlogs, images, illustrations, articles, and abstracts of articles in the field of comedy, drama, documentary, docu-series, animated, mystery, and reality entertainment; providing online non-downloadable videos in the field of comedy, drama, documentary, docu-series, animated, mystery, and reality entertainment; educational services, namely, providing online publications in the field of social media content; provision of information relating to social media content; online electronic publishing concerning social media content; publication of educational materials, namely, publishing of articles, manuals, journals and blogs in the fields of software development, artificial intelligence, machine learning, and building user interfaces; arranging and conducting of training workshops; recreation information; augmented reality video production; conduct and providing access to on-line live workouts, fitness instructions and sessions; conducting fitness classes; education services; educational services, namely, conducting seminars, conferences, and workshops in the fields of health and wellness; educational services, namely, organizing and conducting conferences and seminars in the fields of virtual reality, augmented reality, artificial intelligence and the internet of things; electronic publishing services; entertainment and educational services, namely, providing non-downloadable movies, television shows, webcasts, audiovisual, and multimedia works via the internet, as well as information, reviews, and recommendations regarding movies, television shows, webcasts, audiovisual, and multimedia works; entertainment services, namely, arranging and conducting of competitions for encouraging use and development of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics, and video game entertainment software and hardware; entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, participate in sports activities, engage in health-promoting activities, make achievements in exercise and sports activities, and reach personal goals regarding exercise, sports activities, and fitness; entertainment services, namely, contest and incentive award programs designed to reward program participants who exercise, make healthy eating choices, and engage in other health-promoting activities; entertainment services, namely, incentive award programs designed to reward program participants who exercise; entertainment services, namely, providing access to interactive electronic and online databases of user-defined content, third-party content, photos, video, audio, visual, and audio-visual material in the field of general interest; entertainment services, namely, providing an online forum for the dissemination of content, data, and information for entertainment and social and business networking purposes; entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; entertainment services, namely, providing online facilities for streaming entertainment content and live streaming video of entertainment events; entertainment services, namely, providing online mixed reality environments; mixed reality video production; multimedia production services; online journals, namely blogs featuring commentary, advice and information in the fields of health, wellness, sleep, fitness and nutrition; online journals, namely, blogs; online journals, namely, weblogs (blogs) featuring user-defined content; organizing contest and incentive award programs for software developers; organizing exhibitions and events for cultural, educational, or entertainment purposes;

organizing exhibitions and events in the field of interactive entertainment, virtual reality, mixed reality, and augmented reality, consumer electronics and video game entertainment industries for cultural or educational purposes; organizing exhibitions and events in the field of software development for educational purposes; organizing exhibitions in the field of interactive entertainment, virtual reality, augmented reality, mixed reality, consumer electronics and video game entertainment industries for cultural or educational purposes; organizing live exhibitions and conferences in the fields of culture, entertainment and social networking for non-business and non-commercial purposes; personal coaching services in the field of sports, exercise, health, and fitness; photosharing and video sharing services; pre-recorded athletic and fitness sessions; providing a fitness assessment and a fitness score, and a personalized workout program based on that assessment and score; providing a website featuring fitness coaching, instructions, and sessions; providing a website featuring fitness instructions and sessions; providing a website featuring information regarding fitness training, and athletic skill development; providing a website featuring information regarding fitness training, fitness coaching, fitness goals, and athletic skill development; providing a website featuring information regarding sports, athletic skill development, and fitness training; providing a website featuring pre-recorded athletic and fitness sessions; providing access to pre-recorded athletic and fitness sessions; providing computer, electronic and online databases in the field of entertainment; providing entertainment information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information, via the internet and communication networks; providing group coaching in the field of sports, exercise, health, and fitness; providing information regarding sports, athletic skill development, and fitness training via an online website, other computer and electronic communication networks, and via computer software for gaming consoles, personal computers, personal digital devices, and smart phones; providing online resources for software developers; providing pre-recorded athletic challenges, training, fitness sessions and challenges, and workouts via an online website, other computer and electronic communication networks, and via computer software for gaming consoles, personal computers, personal digital devices, and smart phones; publishing services, namely, publishing of electronic publications for others; virtual reality video production.

**Class 42:** 42Design and development of computer hardware and software; providing online non-downloadable software; providing temporary use of non-downloadable software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; design, engineering, research, development and testing services in the field of mobile application software development related to the use and functionality of hyperlinks; technical consultation in the field of mobile application software development related to the use and functionality of hyperlinks; providing temporary use of non-downloadable software that gives users the ability to engage in social networking and manage their social networking content; computer services, namely, creating an online community for registered users to engage in social networking; providing temporary use of non-downloadable software for creating, managing and accessing user-created and administered groups within virtual communities; providing temporary use of non-downloadable software for creating and managing social media profiles and user accounts; providing temporary use of non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; computer services in the nature of customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; providing temporary use of non-downloadable software that enables users to transfer personal identity data to and share personal identity data with and among multiple websites; application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and

transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; platform as a service (PAAS) featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking and developing software applications; providing temporary use of non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; providing temporary use of non-downloadable software for finding content and content publishers, and for subscribing to content; providing temporary use of non-downloadable software for organizing images, video, and audio-visual content using metadata tags; providing temporary use of non-downloadable software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, transmitting, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; providing temporary use of non-downloadable software for sending and receiving electronic messages, alerts, notifications and reminders; providing application programming interface (API) software for use in electronic messaging and transmission of audio, video, images, text, content and data; providing temporary use of non-downloadable software for electronic messaging; providing temporary use of non-downloadable software to facilitate interactive discussions via communication networks; providing temporary use of non-downloadable software for organizing events, searching for events, calendaring and managing events; providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content; providing temporary use of non-downloadable computer software for use in taking and editing photographs and recording and editing videos; application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; providing temporary use of non-downloadable software for streaming multimedia entertainment content; providing temporary use of non-downloadable computer software for enabling transmission of images, audio, audio visual and video content and data; computer services, namely, providing search engines for obtaining data via the internet and communications networks; providing search engines of online network environments to provide information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content, via the internet and communications networks; application service provider (ASP) services, namely, hosting software applications of others; providing temporary use of non-downloadable software for providing, linking to, or streaming news or current events information; providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; application service provider (ASP) featuring application programming interface (API) software to allow users to perform electronic business transactions via the internet and communication networks; software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; providing temporary use of non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; application service provider (ASP) featuring application programming interface (API) software for creating, managing, tracking, reporting and measuring advertising of

others; providing non-downloadable software for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; providing temporary use of non-downloadable software for creating, sharing, disseminating and posting advertising; providing temporary use of non-downloadable software for creating and maintaining an online presence for individuals, groups, companies, and brands; providing temporary use of non-downloadable software for advertisers to communicate and interact with online communities; providing temporary use of non-downloadable software for curating online user-defined content and advertisements and creating social media feeds; designing and developing computer game software and video game software for use with computers, video game program systems and computer networks; development of hardware for use in connection with electronic and interactive multimedia games; providing temporary use of non-downloadable software that gives users the ability to upload, modify and share virtual reality content, augmented reality content, mixed reality content, information, experiences and data; hosting of virtual reality and augmented reality content on the internet; providing user authentication services using single sign-on and software technology for e-commerce transactions; providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; providing an application programming interface (API) to allow users to perform electronic business transactions via the internet; providing temporary use of non-downloadable software for processing electronic payments; platform as a service (PAAS) services featuring computer software to allow users to perform business and e-commerce transactions; providing temporary access to non-downloadable computer software for providing electronic maps; application service provider (ASP) featuring software for providing electronic maps; providing temporary use of non-downloadable computer software for searching, determining, and sharing locations; providing temporary use of non-downloadable software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing temporary use of non-downloadable computer software for making reservations and bookings; application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; providing temporary use of non-downloadable software that give users the ability to post ratings, reviews, referrals and recommendations relating to businesses, restaurants, service providers, events, public services and government agencies; providing temporary use of non-downloadable software for providing a virtual marketplace; providing temporary use of non-downloadable computer software for ordering and/or purchasing goods and services; application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; providing temporary use of non-downloadable software for searching and identifying employment opportunities; providing temporary use of non-downloadable software for identifying and allowing users to contact government representatives; providing temporary use of non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms; design of augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; providing online non-downloadable personal assistant software; providing non-downloadable social assistant software; providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; providing a website featuring information in the fields of technology and software development via the internet and communication networks; design and development of virtual reality and augmented reality and mixed reality hardware and software; design and development of video game hardware and software; software development; development of interactive multimedia software; maintenance and repair of computer software; computer services,

namely, cloud hosting provider services; providing temporary use of online non-downloadable cloud computing software for use in electronic storage of data; providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; file sharing services, namely, providing temporary use of non-downloadable featuring technology enabling users to upload and download electronic files; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; computer services, namely, providing remote management of devices via computer networks, wireless networks or the internet; data encryption services; encrypted electronic transmission and delivery of recovered data; providing temporary use of online non-downloadable software and applications for customer relationship management (CRM); application service provider (ASP) featuring software for customer relationship management (CRM); computer services, in particular, application service provider featuring application programming interface (API) software for customer relationship management (CRM); providing temporary use of non-downloadable software for facilitating and arranging fundraising and the distribution of fundraising donations; providing temporary use of non-downloadable software for online charitable fundraising services and donation services; scientific and technological services and research and design relating thereto; industrial analysis and research services; computer hardware and software design, development, installation and maintenance; research services and consulting in the field of information and telecommunications technology; design of telecommunications apparatus and equipment; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; providing online software platform featuring technology that enables online users to make payments and transfer funds; providing online software platform featuring technology that enables online users to make payments and funds transfers across multiple websites and mobile applications; computer services, namely, application services provider featuring application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; software as a services (SAAS) services featuring software for facilitating e-commerce transactions via the internet and communications networks; application service provider featuring an application programming interface (API) software to allow users to perform e-commerce transactions via the internet and communications networks; providing temporary use of non-downloadable software for converting natural language into machine-executable commands; analyzing and evaluating social media content; developing standards for third-party social media content; conducting proceedings relating to standards concerning third-party social media content; content moderation and supervision; web publishing, namely, publishing of decisions concerning third-party social media content; providing temporary use of non-downloadable computer software in the nature of a query engine; providing temporary use of non-downloadable computer software for use in performing queries on large amounts of data; providing temporary use of non-downloadable computer software in the nature of a query engine functioning across business intelligence (bi) tools; providing temporary use of online non-downloadable artificial intelligence software for facilitating machine learning software; application service provider (ASP) featuring software to enable or facilitate machine learning software; providing temporary use of online non-downloadable software for machine learning; providing temporary use of online non-downloadable software tools for software development; providing temporary use of online non-downloadable software for building user interfaces; application service provider (ASP) featuring software to enable or facilitate user interface building software; electronic data storage; electronic storage of photographs; interactive hosting services which allow the users to publish and share their own content and images online; providing on-line non-downloadable software for database management; computer network services; providing temporary use of non-downloadable software for opinion polling; providing software allowing users to post questions with answer options; platform as a service (PAAS) services featuring technology that

allows businesses, organizations and individuals to create and manage their online presences and to communicate with online users information and messages regarding their activities, products and services and to engage in business and social networking; providing temporary use of non-downloadable software featuring technology that allows users to manage their business networking accounts; providing temporary use of non-downloadable software for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (PAAS) featuring computer software platforms for personal assistant software; platform as a service (PAAS) featuring computer software platforms for home automation and home device integration software; platform as a service (PAAS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; software as a service (SAAS) featuring computer software for personal information management; providing temporary use of non-downloadable software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; software as a service (SAAS) featuring computer software for use to connect and control internet of things (iot) electronic devices; software as a service (SAAS) featuring computer software for others to use for the development of software to manage, connect, and operate internet of things (iot) electronic devices; software as a service (SAAS) featuring computer software for use as an application programming interface (API); design, development and maintenance of proprietary computer software for others in the field of natural language, speech, language, and voice recognition excluding post-production of picture and sound recordings; technical support and consultation services for developing applications; information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; technological services, namely, data warehousing services; application service provider (ASP), namely, hosting computer software applications through the internet of others; consultation services relating to programming of multimedia application management, computer programming, hardware, software, and computer system design and specification; software as a service (SAAS) services, namely, hosting software for use by others for use providing an online database featuring a wide range of general interest information via the internet; providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; computer, mobile computer, and mobile communication device hardware and software consultation and design; providing temporary use of non-downloadable computer software that enables users to access and download computer software; providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files, and multimedia files; application service provider (ASP) featuring application programming interface (API) software for the streaming, storage, and sharing of video games, content, data and information; computer software development in the field of mobile applications; providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; computer services; it services; application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services, featuring e-commerce software for use as a payment gateway that authorizes processing of credit cards or direct payments for merchants; application service provider (ASP) featuring software to enable or facilitate the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via the internet and communications networks; application service provider services featuring application programming interface (API) software to allow users to perform electronic business transactions via a global computer network;

application service provider (ASP) featuring software to enable or facilitate purchasing goods and services; software as a service (SAAS) services; platform as a service (PAAS) services; providing temporary use of non-downloadable cloud computing software; providing distributed ledger technology; providing temporary use of non-downloadable software for implementing and recording financial transactions, for creating accounts and maintaining and managing information about financial transactions on distributed public ledgers and peer to peer payment networks; providing temporary use of non-downloadable software for processing electronic payments and for transferring funds to and from others; providing electronic financial platform software; providing software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; providing temporary use of non-downloadable software for use in financial trading; providing temporary use of non-downloadable software for use in financial exchange; providing temporary use of non-downloadable software for use in accessing financial information and market data and trends; electronic data storage services; providing temporary use of non-downloadable software for electronic funds transfer; providing temporary use of non-downloadable software for currency conversion; providing temporary use of non-downloadable software for the collection and distribution of data; providing temporary use of non-downloadable software for payment transactions; providing temporary use of non-downloadable software for connecting computers to local databases and global computer networks; providing temporary use of non-downloadable software for creating searchable databases of information and data; providing temporary use of non-downloadable software for creating and managing smart contracts; providing temporary use of non-downloadable software for use in enabling the electronic transfer of funds to and from others; providing temporary use of non-downloadable software for encrypting and enabling secure transmission of digital information over the internet, as well as over other modes of communication between computing devices; distributed ledger platform software for use in processing financial transactions; providing temporary use of non-downloadable software for electronic funds transfer and currency conversion; computer services, namely, providing secure, private encrypted cloud storage services; computer services, namely, providing open source decentralized cloud storage platform; data encryption services featuring blockchain software technology and peer-to-peer protocols to provide secure, private, and encrypted cloud storage; data mining; and sell products and services to others; software as a service (SAAS) featuring software platforms for facilitating transactions and payments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens that allow users to buy from, and sell products and services to others; design, development and implementation of audit and security software for blockchain-based platforms; providing temporary use of non-downloadable software for use in facilitating secure transactions; design, development, and implementation of software for distributed computing platforms; providing temporary use of non-downloadable software for use in accessing, reading, tracking, and using blockchain technology; platform as a service (PAAS) featuring computer software platforms for computer system and application development, deployment, and management; software as a service (SAAS) featuring computer software platforms for computer system and application development, deployment, and management; providing temporary use of non-downloadable software enabling users to develop, build and run distributed applications through an open-source peer-to-peer smart-contract and payment network platform; providing temporary use of non-downloadable authentication software for controlling access to and communications with computers and computer networks; application service provider (ASP); application service provider (ASP) featuring application programming interface (API) software which facilitates online services for social networking, developing software applications; application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; application service provider (ASP) featuring software for mapping services; application service provider (ASP) featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages,

advertisements, media advertising communications and information; application service provider (ASP) featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; application service provider (ASP) featuring software to enable or facilitate social and destination mapping; application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; application service provider (ASP) services; application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; application service provider (ASP), namely, remote hosting of computer applications of others; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; computer consulting, computer programming; computer hardware and software consultation and design; computer hardware, software, application, and network consulting services; computer online services, namely, providing information, online links and electronic resources related to sports, health, and fitness; computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, mixed reality, and augmented reality content and data; computer services, namely, creating virtual communities for registered users to organize groups and events, participate in discussions, get feedback from their peers, and engage in social, business and community networking; computer services, namely, curating online user-defined content and advertisements and creating social media feeds; computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; computer services, namely, providing information in the fields of technology and software development via the internet; computer software development; creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; design and development of augmented reality hardware and software; design and development of computer hardware and computer software; design and development of interactive multimedia software; design and development of mixed reality hardware and software; design and development of virtual reality hardware and software; file sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; hosting of digital content on the internet; mapping services; mobile computer and mobile communications device hardware and software consultation and design; mobile computer and mobile communications device software design for others; non-downloadable computer software for displaying, aggregating, analyzing and

organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; non-downloadable computer software for social and destination mapping; non-downloadable computer software for tracking fitness, health and wellness goals and statistics; non-downloadable software for creating personalized fitness training programs; non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; non-downloadable software for ordering and/or purchasing goods and services; non-downloadable software for processing electronic payments; non-downloadable software for providing a virtual marketplace; non-downloadable software for providing personal training services, workouts and fitness assessments; non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text and data; non-downloadable software for streaming multimedia entertainment content; non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; online ad-buying platform provider, namely, providing non-downloadable software programs for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; online non-downloadable cloud computing software for use in electronic storage of data; online non-downloadable cloud computing software for virtual, mixed and augmented reality applications and environments; online non-downloadable computer software for use in providing retail and ordering services for a wide variety of consumer goods; platform as a service (PAAS) featuring computer software platforms for use in purchasing and disseminating advertising; platform as a service (PAAS) featuring computer software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; platform as a service (PAAS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (PAAS) featuring software platforms for social networking and transmission of images, audio-visual content, video content and messages; platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; provide an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for gaming consoles, personal computers, personal digital devices, and smart phones; providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; providing customized computer searching services, namely, searching and retrieving information at the user's specific request via the internet; providing information from searchable indexes and databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; providing internet search engines; providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; providing online

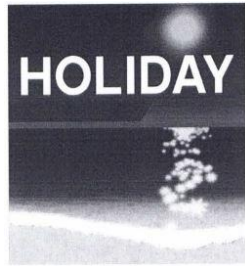

facilities that give users the ability to upload, modify and share audio, video, photographic images, text, graphics and data; providing online facilities featuring technology that enables online users to create personal profiles featuring social and business networking information and to transfer and share such information among multiple online facilities; providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; providing online sites that gives users the ability to upload, modify and share virtual reality, mixed reality and augmented reality content, information, experiences and data; providing personal assistant software; providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; providing social assistant software; providing software for facilitating and arranging for the financing and distribution of fundraising and donations; providing software for online charitable fundraising services and financial donation services; providing temporary access to non-downloadable computer software for mapping services; providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; providing temporary use of non-downloadable computer software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices, namely, mobile phones, smartphones, handheld computers and computer tablets; providing temporary use of non-downloadable computer software for sharing and displaying a user's location, planning activities with other users and making recommendations; providing temporary use of non-downloadable computer software for social and destination mapping; providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; providing temporary use of non-downloadable computer software for accessing, collecting, displaying, editing, linking, modifying, organizing, tagging, streaming, sharing, storing, transmitting, and otherwise providing electronic media, photographs, images, graphics, audio, videos, audio-visual content, data and information via the internet and communication networks; providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing temporary use of non-downloadable software applications for providing location-based weather information; providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; providing temporary use of non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and virtual reality, mixed reality, and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; providing temporary use of non-downloadable software for streaming multimedia entertainment content; providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; providing temporary use of online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; provision of internet search engine services; rental of computer software that gives users the ability to upload, edit, and share images, videos and audio-visual content; software as a service (SAAS) featuring computer software for accessing, browsing, and searching online databases, audio,

video and multimedia content, games, and software applications, software application marketplaces; software as a service (SAAS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; software as a service (SAAS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; software as a service (SAAS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; software as a service (SAAS) services, namely, hosting software for use by others for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs; software for electronic messaging; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; technological services, namely, data warehousing services.

**Class 45:** Online social networking and dating services; social networking, social introduction and dating services provided via access to computer databases and online searchable databases in the fields of social networking, social introduction and dating; providing information in the fields of social networking and social introduction; providing social networking services, namely, the provision of information in the field of personal development, self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and community services, and humanitarian activities; providing concierge services for others to meet the needs of individuals, namely, booking reservations, facilitating personal purchases, arranging personal deliveries, making requested personal arrangements, providing recommendations on products and services, providing customer-specific information to meet individual needs; legal services; reviewing standards and practices relating to social media content; compliance consulting in the field of social media; consulting services in the field of online social networking and social media services; authentication services; online social investment network in the nature of an on-line social networking services in the field of investments; providing a website featuring information on the development of privacy, security, blockchain and distributed ledger technologies, and data governance law; business identification verification services; identification verification services; online social networking services; personal concierge services for others comprising making requested personal arrangements and reservations and providing customer-specific information to meet individual needs; providing access to computer databases and online searchable databases in the fields of social networking, social introduction and dating; social introduction and networking and dating services; social networking services related to sports, fitness, and coaching activities provided through a community website online and other computer and electronic communication networks; user verification services.

**Specification of goods/services:**

**Class 9:** Global positioning system using satellite constellations; Internet server; telecommunication hardware, namely, devices that allow wireless connection to global communication networks and wireless connection of electronic devices to global communication networks; computer software to enable the transmission of information in the fields of meteorology, climatology, geography, topography, oceanography, and human and animal migration to telecommunications networks and navigation devices; computer software to enable wireless connection to global communication networks and wireless connection of electronic devices to global communication networks; electronic global positioning and geo-location systems devices, namely, global positioning satellite-based receivers; all of the foregoing excluding the US government's global positioning systems.

**Class 38:** Internet service provider (ISP) services; satellite telecommunications services, namely, transmission of a wireless internet signal via satellites; providing third party users with access to satellite telecommunications infrastructure; telecommunication services, namely, transmission and delivery of digital data, light files, sound files, data, information and image signals, by means of computer and satellite networks; transmission of real-time data and images obtained via satellites and space vehicles.

**Class 39:** Providing global positioning and geo-location information about the location of items in transit via wireless and satellite networks, excluding the US government's global positioning systems.

**Class 42:** Cloud storage services for electronic data and files; cloud computing services; cloud computing featuring software for collecting, tracking, monitoring and analyzing data obtained via satellites and space vehicles in the fields of meteorology, climatology, geography, topography, oceanography, human and animal migration; cloud computing featuring software for enabling and managing simultaneous, multiple modes of communication via satellites; cloud computing featuring software for use in connection with data processing, data storage, data capture, data collection, data warehousing, data management, data mining, database analytics, and secure data sharing; design and development of satellite telecommunications technology; research in the field of satellite telecommunications technology; consultancy in the field of satellite telecommunications technology; design, development, and maintenance of telecommunications networks, software and apparatus in the field of satellite communications; providing information in the fields of meteorology, climatology, geography, topography, oceanography, and human and animal migration via telecommunication

networks and wireless navigation devices; providing online computer mapping services; providing information in the fields of meteorology, climatology, geography, topography, oceanography, and human and animal migration via telecommunications networks and satellite aided navigation devices; providing geographic data and images obtained via satellites and space vehicles via a website.

**Specification of goods/services:**

**Class 9:** DNA chips; electric locks for vehicles; instruments for diagnosis [for scientific use]; laboratory instruments [other than for medical use]; apparatus and instruments for physics; optical apparatus and instruments, except for glasses and photographic apparatus; safety equipment for vehicles, namely cameras for vehicles; blind-spot detection cameras for exposing and eliminating the blind spots on both sides of the vehicle; black box camera for cars; car recognizing cameras; night vision infrared cameras with built-in airlines; photographic equipment; video conferencing apparatus; home theater systems; audiovisual teaching apparatus; distance sensors; lidar sensors for detecting objects and motions for autonomous cars; motion recognizing sensors for blind spot; blind spot object detecting sensors; blind spot motion sensors; sensors for measuring speed; apparatus for testing vehicle brakes; apparatus for testing vehicle transmissions; thermostats for vehicles; autonomous driving control systems for vehicles; parking sensors for vehicles; kilometer recorders for vehicles; diagnostic apparatus for vehicles; automatic indicators of low pressure in vehicle tyres; sensors for engines; sensors for determining position, velocity, acceleration and temperature; sensors for determining position; automatic vehicle speed control apparatus; motion sensors for automobiles; electronic sensors for automobiles, namely, forward and backward safety sensors; speed sensors for automobiles; OBD (on-board diagnostics) apparatus for automobiles; electronic sensors for automobiles, namely, detector units for use in controlling the actuation and operation of automotive safety apparatus and equipment; electronic sensors for automobiles, namely, sensors for use in controlling the actuation and operation of automotive safety apparatus and equipment; parking and locational sensors for automobiles; parking sensors for automobiles; crash sensors for automobiles; odometers; backup electronic sensors (for use in vehicle safety equipment); electronic sensors for vehicles; lateral distance sensors for cars; lateral safety sensors for cars; measuring instruments; vehicle speed control apparatus; temperature and environmental sensors for measuring the presence of objects in the environment and the speed, trajectory, and heading of objects; protective eyeglasses; sunglasses; eyeglasses; eyeglass cases; time recording equipment; calculating machines, data-processing equipment and computers; acoustic vehicle alert system of virtual engine sound; collision alarms; alarms for tire pressure monitoring systems; theft prevention apparatus, other than for vehicles; signals, luminous or mechanical; warning lamps for vehicles; fire trucks; air sensors for vehicles; USB battery chargers for use in automobiles; robotic electrical control apparatus; uninterruptible electrical power supplies; voltage regulators for vehicles; electrical controlling devices for engines; charging appliances for rechargeable equipment; charging stations for electric vehicles; electricity devices for controlling energy supply; electrical controlling devices; control installations (electric -); apparatus and instruments for regulating electricity; regulating apparatus, electric; apparatus and instruments for

conveying, distributing, transforming, storing, regulating or controlling electric current; current rectifiers; apparatus for adjusting headlights; solar modules; batteries for vehicles; fuel cells; batteries for automobiles; rechargeable batteries; batteries for electric vehicles; electric batteries; nickel-hydrogen batteries; energy storage apparatus comprised of batteries; power bank (rechargeable batteries); electricity measuring apparatus and instruments; starter cables for motors; electric cables, wires, conductors and connection fittings therefor; electric hybrid cables; black boxes [data recorders]; voice processing systems; video recording apparatus for vehicles; car cassette players; smartwatches; wearable computers; apparatus for recording, transmission or reproduction of sound, images and data; remote monitoring apparatus; electronic monitoring instruments, other than for medical use; television monitoring apparatus; GPS navigation device; GPS tracking and location devices; remote control apparatus for industrial automation instruments; radar object detectors for vehicles; navigation apparatus for vehicles [on-board computers]; remote control apparatus; GPS navigation devices for cars; electric telecommunications apparatus; navigation apparatus for automobiles with electronic payment software; telecommunication apparatus for use in cars; electronic payment terminals for cars; electronic terminals for highway toll collection; laboratory robots; humanoid robots with artificial intelligence for use in scientific research; software for controlling robots; downloadable computer software for the provision of information relating to vehicle trip information history, parking location management, trip information, vehicle health management, driving information, and third-party promotional data in the form of advertising for drivers; downloadable and recorded computer software for autonomous driving of motor vehicles; recorded software for data processing for autonomous driving control; downloadable and recorded computer software for the navigation, steering, calibration, and management for autonomous vehicles; downloadable software for parking location identification; downloadable and recorded computer software for vehicle navigation; recorded computer software for the ignition, coordination, calibrating, direction and management of vehicles; downloadable and recorded computer software for controlling vehicle communications networks; downloadable and recorded computer software platforms for advanced safety and driver assistance systems for vehicles; computer programs and software for vehicles; downloadable software for the control and remote control of vehicles; computer databases; computer software for simple payment; computer application software for use on smartphones for simple payment; in-vehicle audio video navigation software for simple payment; software for secure data storage and retrieval and transmission of customer information used by individuals, banking and financial institutions for electronic payment; downloadable smartphone application (software); computer software for use with route planners, electronic maps and digital dictionaries for navigation purposes; computer application software for smartphones for use in rental car leasing and rental car maintenance; computer software for facilitating payment transactions by electronic means over wireless networks, global computer networks and/or mobile telecommunications devices; downloadable computer application software for use on smartphones for the provision of information relating to vehicle trip information history, parking location management, trip information, vehicle health management, driving information, and third-party promotional data in the form of advertising for drivers; downloadable computer software for providing remote vehicle diagnosis, vehicle maintenance information, entertainment in the form of audio and visual displays in vehicles, third-party communication in vehicles, navigation function, and audio and visual display in vehicles; smartphone application (software) that enables the drivers to make in-vehicle simple payment regarding refueling, parking, using toll gate and purchasing products at various stores; smartphone application (software) that enables the drivers to make in-vehicle simple payment regarding refueling, parking, using toll gate and purchasing products at various stores as well as ordering purchase of foods and beverages in vehicle; computer software that enables the drivers to make in-vehicle simple payment regarding refueling, parking, using toll gate and purchasing products at various stores as well as ordering purchase of foods and beverages in vehicle; application software for providing electronic payment agency services; computer software of in-vehicle simple payment; smartphone application (software) accessible to in-vehicle systems; computer program for simple

payment through in-vehicle audio video navigation; computer firmware for platform of in-vehicle simple payment; computer application software for smartphones of in-vehicle simple payment; computer application software for use on smartphones for use in the management of vehicle rental and vehicle maintenance; computer application software for use on smartphones for a vehicle lease; downloadable computer application software in the operation and management of vehicles; recorded computer software for safe car driving; downloadable computer application software for vehicles; computer application software for computers and mobile devices, namely, software for locating and sharing information regarding electric vehicle charging stations; encoded cards for use in relation to the electronic transfer of financial transactions; computer hardware for use with satellite and/or GPS navigation systems for navigation purposes; data processing apparatus; computer hardware for facilitating payment transactions by electronic means over wireless networks, global computer networks and/or mobile telecommunications devices; laser installations, other than for medical use, for sensing distance to objects; steering apparatus, automatic, for vehicles; simulator for optical devices; vehicle drive training simulators; flight simulators for aircraft; electronic payment terminal operated by encoded cards, stored value cards, prepaid cards and smart cards; speech recognition apparatus; digital car driving recording apparatus; black box for cars; electronic keyless entry systems for automobiles (vehicles) (terms too vague in the opinion of the International Bureau – Rule 13 (2) (b) of the Regulations); electronic control apparatus for autonomous driving of vehicles; computer apparatus for parking location identification; security terminal for in-vehicle electronic transactions; devices for in-vehicle e-payment process; computer hardware for vehicle fleet launching, coordination, calibrating, direction, and management; computer hardware for transmission of data within a vehicle and for communications between and among vehicles and a cloud-based platform; LED information display apparatus for car; laser object detectors for use on vehicles; computer apparatus for the control and remote control of vehicles; computer display monitors; computer components and parts; computer hardware; peripherals adapted for use with computers; video game cartridges and cassettes; articles of protective clothing for wear by motorcyclists for protection against accident or injury; downloadable music files; downloadable multimedia file; downloadable image files; downloadable computer graphics; encoded plastic non-magnetically coded IC cards; downloadable ticket; downloadable electronic maps; computer digital maps; game software for metaverse environments; computer interface software for metaverse environments; recorded data files featuring meta data containing information on digital assets; downloadable image files featuring virtual merchandise such as clothing, shoes, bags, headgear, eyewear, sports equipment, works of art, paintings, toys, etc. for metaverse environments; downloadable image files featuring virtual cars for metaverse environments; downloadable image files featuring character images for metaverse environments; downloadable image files featuring avatars for metaverse environments; computer software for creating and managing virtual goods authenticated by non-fungible tokens [NFTs]; content operating software for metaverse environments; computer software for automatic storage of trading data of blockchain-based non-fungible tokens; computer software for issuing, trading, selling, managing, and verifying blockchain-based non-fungible tokens; encryption apparatus with blockchain-based non-fungible tokens (NFTs); computer software for issuing, trading, selling, managing, and verifying blockchain-based ownership and license of digital contents; downloadable software for virtual money; downloadable computer programmes for electronic money payment; computer application software for allowing users to experience in metaverse environment; computer software for distributing digital content in metaverse environments; computer software for providing digital content in metaverse environments; game software for smartphones in order to experience indirectly various information through metaverse environments; video display managing software; data processing software (for the purpose of editing, storing, sharing, broadcasting, sending and viewing of photos/videos or chatting); computer application software for mobile phone camera based on virtual/augmented reality; computer software for processing digital images featuring services that automatically converts portrait into 3D avatar images; software for creating, manipulating and participating 3D virtual environments;

computer e-commerce software for creating and managing virtual goods authenticated by non-fungible tokens [NFTs]; computer software for used in implementing the metaverse environments; computer software for metaverse environments; software for navigating an augmented reality environment; virtual reality software; software for virtual reality experiences; software for navigating a virtual reality environment; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; augmented reality software for interactive experiences; virtual reality software for interactive experiences; software for augmented reality experiences; augmented reality software; virtual reality software that enables you to provide virtual reality experiences with computers, tablets, mobile devices or mobile phones.

**Specification of goods/services:**

**Class 9:** Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices, computers and computer peripheral devices, data processing apparatus, computer software, magnetic data carriers, recording discs; compact discs, DVDs and other digital and optical recording media; telecommunications devices, apparatuses and equipment, and parts and fittings thereof; base stations for telecommunication networks, computer networks, connectivity networks and wireless communication networks; cells for telecommunication networks, computer networks, connectivity networks and wireless communication networks, transmitters; receivers; electronic controllers, electric switches, antennas, electric cables, coaxial cables, electric wires, insulated copper wires; amplifiers; commutators; modems; radio and

microwave transmission devices and equipment; apparatus and instruments for data communication, satellite communication and telecommunication; apparatus and instruments for monitoring of telecommunication networks and data communication networks; radar equipment, ciphering equipment, phones, smartphones and other wearable and portable electronic devices for capturing, receiving, collecting, recording, reading, displaying, organizing, editing, transmitting, sharing, manipulating and reviewing data, text, maps, images and sounds; portable media players; tablets; electronic agendas; electronic book readers; notebook computers, digital photo frames, cameras, camcorders; sensors, presence capture devices; wearable connected devices, namely devices in the form of watches, smart glasses, contact lenses, headbands, gloves, bracelets, earrings, jewelry, helmets and contact lenses that can be used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote-controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable connected devices, namely computing devices to be carried by end-users, or to be worn on or into the body of end-users or to be incorporated into clothing, footwear, headgear, contact lenses, bags, textiles, fabrics, tissue and any kinds of materials and portable goods and accessories and that can be used for computing, sensing scanning, recording, displaying, monitoring, data-processing, remote controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable and portable computing devices; smartwatches; head-mounted displays; devices with electric, electronic and digital functions that can connect to computer networks and which have computing, sensory, scanning, communication, data-storage, biofeedback, physiological-tracking, health-monitoring, fitness-monitoring, predictive or augmented-reality capabilities, in the form of glasses, gloves, watches, clothing, footwear, headgear, bands and helmets; batteries; chargers; printers; covers for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; audio, imaging, video and radio apparatus and instruments; speakers; headsets, microphones; television and multimedia apparatus; displays for electronic devices, displays for telecommunication devices, displays for computers and mobile phones; hands free kits for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; electronic publications; Global Positioning System (GPS) apparatus, instruments and devices; navigation apparatus for vehicles (on-board computers); navigational instruments; satellite navigational apparatus, apparatus and software for GPS navigation and mapping systems; electronic chips; microprocessors; semi-conductors; smart cards (integrated circuit cards); printed circuits; remote control apparatus; downloadable sound, video and image files; electronic pens; electronic tags for goods; computer software, computer hardware and wearable computing devices allowing the remote monitoring, control and command of vehicles and vehicle parameters, of household appliances and furniture, of energy management systems, of home automation systems, of security systems, of home entertainment and audio/video equipment, of telecommunication devices, social media devices and computing devices, and of fitness and health telecare equipment; machine to machine (M2M) communications equipment and devices; computer game software; video game cartridges; memory cards for video game machines; software applications; spectacles; smart glasses; binoculars; spectacle frames; optical lenses; contact lenses; optical goods; optical glass; application programming interfaces (APIs); computer software and hardware allowing to listen to music and read audio/video files, to send and read out electronic messages, to take, edit, read, display and share digital photographs, sounds and videos, to browse on the Internet, to chat and to connect to social networks; digital maps; software applications for providing location-based and contextually-relevant advertisement; vision recognition software; audio recognition software; computer software and hardware for the provision and rendering of travel and tourism advice and for providing information about location of entertainment venues, local education institutions, hotels, landmarks, museums, public transportation, traffic, parking information, weather, price comparison, shopping, advertisement, health and fitness, employment information, social activities and cultural events, Points of Interest (POIs), sporting events, food and drink; location tracking devices; software applications and hardware enabling the user to obtain location-related and contextually-relevant

information; computer software and hardware providing health, fitness and well-being information; equipment and apparatus for measuring and/or recording different physiological or other parameters, including heart rate, blood pressure, weight, sleep quality, ventilation, body temperature, skin conductivity, blood glucose, lactic acid, time, speed, acceleration, altitude, environmental temperature, humidity and purity, not for medical use, downloadable software in the nature of a mobile application for displaying and sharing a user's location and finding, locating, and interacting with other users; computer software and hardware allowing online payment and payment at distance; computer software and programs, namely algorithms for the compression, decompression, encoding, decoding and processing of audio, video and imaging data; audio, video and images encoder/decoder (codec), computing and communication hardware and software for use by public safety agencies; air analysis apparatus, alarms; anti-theft warning apparatus, apparatus and instruments for astronomy; automated teller machines (ATM); bar code readers; computer memory devices; control panels (electricity); detectors; diagnostic apparatus, not for medical purposes; distance measuring apparatus; downloadable ring tones for mobile phones; electric installations for the remote control of industrial operations; electro-dynamic apparatus for the remote control of railway points and of signals; electronic notice boards; encoded magnetic cards and identification bracelets; extinguishers; fiber optic cables; heat regulating apparatus; high-frequency apparatus; holograms; electric apparatus for remote ignition; intercommunication apparatus; interfaces for computers; lasers, not for medical purposes; life-saving equipment; light-emitting diodes [LED]; locks, electric; loudspeakers; masts for wireless aerials; material testing instruments and machines; meteorological instruments; metronomes; monitoring apparatus, electric; monitors; optical fibers; optical data media; particle accelerators; pedometers; photocopiers; photovoltaic cells; precision balances; pressure measuring apparatus; printers for use with computers; probes for scientific purposes, radar apparatus; radiological apparatus for industrial purposes; radiotelephony sets; railway traffic safety appliances; telemeters; refractors; regulating apparatus, electric; satellites for scientific purposes; scales; scanners; signs, luminous; simulators for the steering and control of vehicles; gradient indicators; sonars; sounding apparatus and machines; steering apparatus, automatic, for vehicles; stereoscopic apparatus; teleprinters; telescopes; testing apparatus not for medical purposes; theft prevention installations, electric; thermometers, not for medical purposes; thermostats; traffic-light apparatus; USB flash drives; walkie-talkies; weighing machines; X-rays producing apparatus and installations, not for medical purposes; scales for medical and surgical purposes; displays and sensors for vehicles; parts, fittings and accessories of all the aforementioned goods.

**Class 12:** Vehicles; apparatus for locomotion by land, air or water; driverless vehicles (autonomous vehicles); electric vehicles; automobiles; cars; cycles; bicycles; motorcycles; boats; trucks; locomotives; wagons; aircrafts; aeroplanes; cable transport apparatus and installations; civilian and military drones; aeronautical apparatus, machines and appliances; anti-theft devices for vehicles; engines, electric motors and propulsion mechanisms for land vehicles, parts, fittings and accessories of all the aforementioned goods.

**Class 35:** Advertising; business management; business administration; office functions; arranging subscriptions to telecommunication services for others; providing business and commercial information, commercial or industrial management assistance; collection, compilation, processing, management, updating and maintenance of data in computer databases; compilation of statistics; data search in computer files for others; demonstration of goods; computerized file management; market studies; office machines and equipment rental; provision of an on-line marketplace for buyers and sellers of goods and services; arranging and conducting of commercial, trade and business shows and exhibitions; outsourcing services (business assistance); procurement services for others [purchasing

goods and services for other businesses]; wholesale, retail and online store services in the fields of apparatus and equipment for recording, capturing, storing, processing, editing, displaying, transmitting and reproducing sound, images or video; wholesale, retail and online store services in the fields of telecommunications, information technology (IT) and networking devices, equipment, systems and software; wholesale, retail and online store services in the fields of phones, handheld mobile digital electronic devices, wearable computing devices, horological and chronometric instruments, navigation devices, computers, computer hardware and computer software; wholesale, retail and online store services in the fields of energy management systems, home automation systems and security systems; wholesale, retail and online store services in the fields of medical, fitness and health-monitoring equipment and apparatus; wholesale, retail and online store services in the fields of heating, cooking, cooling and lighting apparatus and equipment; information, advisory and consultancy services relating to all the aforesaid services.

**Class 37:** Construction services; installation and repair services for electric and electronic devices and systems, telecommunication devices and systems, sensors, chips, microprocessors, semi-conductors, smart cards (integrated circuit cards), printed circuits, navigational devices and systems, vehicles, drones and parts and fittings thereto; rental of construction equipment; electric appliance installation and repair; machinery installation, maintenance and repair; installation, maintenance and repair of computers, tablet computers, computer hardware, computer peripherals, phones, smartphones, electronic organizers, smartwatches, cameras, audio and video equipment, wearable and portable computing devices, vehicles, office machines and equipment, household appliances, energy management systems, home automation systems, lighting devices and equipment, sanitary installations, security systems, home entertainment, fitness and health equipment, medical apparatus and instruments, machine to machine (M2M) communications equipment, electric and electronic apparatus, optical and navigation devices; installation, maintenance and repair of telecommunications and networking devices, equipment and systems; information, advisory and consultancy services relating to all the aforesaid.

**Class 38:** Telecommunications services; telephone services; teleconferencing services; videoconferencing services; voice mail services; telecommunications routing and junction services; transmission of electronic mail, transmission of digital files; cellular telephone communication; communications by computer terminals; communications by fiber optic and wireless networks; satellite transmission; computer aided transmission of messages, sound, data and images; facsimile transmission; message sending; paging services (radio, telephone or other means of electronic communication); radio communications; radiobroadcasting; television broadcasting; wireless broadcasting, streaming of data, video-on-demand transmission; news agency services; electronic bulletin board services (telecommunications services); rental, hire and leasing of telecommunications devices, equipment and systems; rental of telephones; rental of modems; rental of message sending apparatus; providing online forums; providing telecommunications connections to a global computer network; providing user access to global computer networks; providing telecommunication channels for teleshopping services; providing Internet chatrooms; providing access to databases; rental of access time to global computer networks; information, advisory and consultancy services relating to all the aforesaid services.

**Class 41:** Education; providing of training; entertainment; sporting and cultural activities; arranging and conducting of colloquiums, exhibitions, conferences, congresses, in-person educational forums, symposiums, seminars, award ceremonies and workshops; arranging and conducting of commercial,

trade and business conferences; organization of competitions (education or entertainment); practical training (demonstration); coaching (training); audio, video and images editing and production services; electronic desktop publishing; news reporters services; on-line publication of electronic books and journals; providing on-line electronic publications, on-line music and on-line videos, not downloadable; publication of texts, other than publicity texts; publication of books; film production, other than advertising films; production of radio and television programmes; television entertainment; radio entertainment; rental of audio and video equipment; rental of cinematographic apparatus; rental of radio and television sets; game services provided on-line from a computer network; games equipment rental; information, advisory and consultancy services relating to all the aforesaid services.

**Class 42:** Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; installation, maintenance and updating of computer software; computer programming; computer system analysis and design; computer virus protection services; computer security consultancy; engineering; electronic data storage; monitoring of computer systems by remote access; outsource service providers in the field of information technology; recovery of computer data; research and development of new products for others; consultancy in the field of energy-saving; energy auditing; provision of scientific information; scientific laboratory services; technical project studies; technological consultancy; telecommunications technology consultancy; scientific and technological analysis, research, development, planning, optimization, support, technical troubleshooting and consultancy services in the field of telecommunications devices, equipment, networks, systems, solutions and software; design, engineering and development of telecommunications devices, equipment, networks, systems, solutions and software; scientific and technological analysis, research, development, support, technical troubleshooting and consultancy services in the fields of artificial intelligence, nanomaterials, sensors, connectivity, information technology (IT), geolocation and mapping, navigation, computer hardware, computer software, computing technologies, data analytics, audio technologies, imaging and video technologies, digital media technologies, multimedia technologies, virtual reality technologies, radio technologies, medical and healthcare technology, public safety technology, energy technologies, transport technologies, wearable computing devices, printing, automation, connected vehicles, connected furniture, connected clothing, connected consumer products, connected home appliances, machine to machines (M2M) systems, presence capture solutions; scientific and technological analysis and research services in the fields of vehicles, furniture, medical, clothing, audio/video, home appliances and consumer products that can communicate via computer or telecommunication network, as well as support, consultancy and development services relating to all the aforementioned services; cloud computing; server hosting; software as a service (SaaS) services; infrastructure as a service (IaaS) services; platform as a service (PaaS) services; application service provider (ASP) services; providing on-line (non-downloadable) software and mobile applications; providing temporary use of on-line non-downloadable software for use as an application programming interface (API); providing temporary use of on line non-downloadable software development tools; rental of computer software and hardware; rental of audio, imaging, video, digital media, multimedia, virtual reality and presence capture software and hardware; data encoding and decoding services; leasing of data processing equipment; cartography services; mapping services; map creation services; on demand design services of online and digital maps; technical digital imaging services; industrial design; off-site data backup; research in the field of environmental protection and recycling; predictive analytic services relating to computer software, computer hardware and information technology (IT); information, advisory and consultancy services relating to all the aforesaid services.

**Specification of goods/services:**

**Class 9:** Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices, computers and computer peripheral devices, data processing apparatus, computer software, magnetic data carriers, recording discs; compact discs, DVDs and other digital and optical recording media; telecommunications devices, apparatuses and equipment, and parts and fittings thereof; base stations for telecommunication networks, computer networks, connectivity networks and wireless communication networks; cells for telecommunication networks, computer networks, connectivity networks and wireless communication networks, transmitters; receivers; electronic controllers, electric switches, antennas, electric cables, coaxial cables, electric wires, insulated copper wires; amplifiers; commutators; modems; radio and microwave transmission devices and equipment; apparatus and instruments for data communication, satellite communication and telecommunication; apparatus and instruments for monitoring of telecommunication networks and data communication networks; radar equipment, ciphering equipment, phones, smartphones and other wearable and portable electronic devices for capturing, receiving, collecting, recording, reading, displaying, organizing, editing, transmitting, sharing, manipulating and reviewing data, text, maps, images and sounds; portable media players; tablets; electronic agendas; electronic book readers; notebook computers, digital photo frames, cameras, camcorders; sensors, presence capture devices; wearable connected devices, namely devices in the form of watches, smart glasses, contact lenses, headbands, gloves, bracelets, earrings, jewelry, helmets and contact lenses that can be used for computing, sensing, scanning, recording, displaying, monitoring, data-processing, remote-controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable connected devices, namely computing devices to be carried by end-users, or to be worn on or into the body of end-users or to be incorporated into clothing, footwear, headgear, contact lenses, bags, textiles, fabrics, tissue and any kinds of materials and portable goods and accessories and that can be used for computing, sensing scanning, recording, displaying, monitoring, data-processing, remote controlling, predicting, programming, connecting to computer networks or for telecommunication purposes; wearable and portable computing devices; smartwatches; head-mounted displays; devices with electric, electronic and digital functions that can connect to computer networks and which have computing, sensory, scanning, communication, data-storage, biofeedback, physiological-tracking, health-monitoring, fitness-monitoring, predictive or augmented-reality capabilities, in the form of glasses, gloves, watches, clothing, footwear, headgear, bands and helmets; batteries; chargers; printers; covers for phones, smartphones, computers, tablets

and other wearable and portable handheld computing devices; audio, imaging, video and radio apparatus and instruments; speakers; headsets, microphones; television and multimedia apparatus; displays for electronic devices, displays for telecommunication devices, displays for computers and mobile phones; hands free kits for phones, smartphones, computers, tablets and other wearable and portable handheld computing devices; electronic publications; Global Positioning System (GPS) apparatus, instruments and devices; navigation apparatus for vehicles (on-board computers); navigational instruments; satellite navigational apparatus, apparatus and software for GPS navigation and mapping systems; electronic chips; microprocessors; semi-conductors; smart cards (integrated circuit cards); printed circuits; remote control apparatus; downloadable sound, video and image files; electronic pens; electronic tags for goods; computer software, computer hardware and wearable computing devices allowing the remote monitoring, control and command of vehicles and vehicle parameters, of household appliances and furniture, of energy management systems, of home automation systems, of security systems, of home entertainment and audio/video equipment, of telecommunication devices, social media devices and computing devices, and of fitness and health telecare equipment; machine to machine (M2M) communications equipment and devices; computer game software; video game cartridges; memory cards for video game machines; software applications; spectacles; smart glasses; binoculars; spectacle frames; optical lenses; contact lenses; optical goods; optical glass; application programming interfaces (APIs); computer software and hardware allowing to listen to music and read audio/video files, to send and read out electronic messages, to take, edit, read, display and share digital photographs, sounds and videos, to browse on the Internet, to chat and to connect to social networks; digital maps; software applications for providing location-based and contextually-relevant advertisement; vision recognition software; audio recognition software; computer software and hardware for the provision and rendering of travel and tourism advice and for providing information about location of entertainment venues, local education institutions, hotels, landmarks, museums, public transportation, traffic, parking information, weather, price comparison, shopping, advertisement, health and fitness, employment information, social activities and cultural events, Points of Interest (POIs), sporting events, food and drink; location tracking devices; software applications and hardware enabling the user to obtain location-related and contextually-relevant information; computer software and hardware providing health, fitness and well-being information; equipment and apparatus for measuring and/or recording different physiological or other parameters, including heart rate, blood pressure, weight, sleep quality, ventilation, body temperature, skin conductivity, blood glucose, lactic acid, time, speed, acceleration, altitude, environmental temperature, humidity and purity, not for medical use, downloadable software in the nature of a mobile application for displaying and sharing a user's location and finding, locating, and interacting with other users; computer software and hardware allowing online payment and payment at distance; computer software and programs, namely algorithms for the compression, decompression, encoding, decoding and processing of audio, video and imaging data; audio, video and images encoder/decoder (codec), computing and communication hardware and software for use by public safety agencies; air analysis apparatus, alarms; anti-theft warning apparatus, apparatus and instruments for astronomy; automated teller machines (ATM); bar code readers; computer memory devices; control panels (electricity); detectors; diagnostic apparatus, not for medical purposes; distance measuring apparatus; downloadable ring tones for mobile phones; electric installations for the remote control of industrial operations; electro-dynamic apparatus for the remote control of railway points and of signals; electronic notice boards; encoded magnetic cards and identification bracelets; extinguishers; fiber optic cables; heat regulating apparatus; high-frequency apparatus; holograms; electric apparatus for remote ignition; intercommunication apparatus; interfaces for computers; lasers, not for medical purposes; life-saving equipment; light-emitting diodes [LED]; locks, electric; loudspeakers; masts for wireless aerials; material testing instruments and machines; meteorological instruments; metronomes; monitoring apparatus, electric; monitors; optical fibers; optical data media; particle accelerators; pedometers; photocopiers; photovoltaic cells; precision balances; pressure measuring apparatus; printers for use

with computers; probes for scientific purposes, radar apparatus; radiological apparatus for industrial purposes; radiotelephony sets; railway traffic safety appliances; telemeters; refractors; regulating apparatus, electric; satellites for scientific purposes; scales; scanners; signs, luminous; simulators for the steering and control of vehicles; gradient indicators; sonars; sounding apparatus and machines; steering apparatus, automatic, for vehicles; stereoscopic apparatus; teleprinters; telescopes; testing apparatus not for medical purposes; theft prevention installations, electric; thermometers, not for medical purposes; thermostats; traffic-light apparatus; USB flash drives; walkie-talkies; weighing machines; X-rays producing apparatus and installations, not for medical purposes; scales for medical and surgical purposes; displays and sensors for vehicles; parts, fittings and accessories of all the aforementioned goods.

**Class 12:** Vehicles; apparatus for locomotion by land, air or water; driverless vehicles (autonomous vehicles); electric vehicles; automobiles; cars; cycles; bicycles; motorcycles; boats; trucks; locomotives; wagons; aircrafts; aeroplanes; cable transport apparatus and installations; civilian and military drones; aeronautical apparatus, machines and appliances; anti-theft devices for vehicles; engines, electric motors and propulsion mechanisms for land vehicles, parts, fittings and accessories of all the aforementioned goods.

**Class 35:** Advertising; business management; business administration; office functions; arranging subscriptions to telecommunication services for others; providing business and commercial information, commercial or industrial management assistance; collection, compilation, processing, management, updating and maintenance of data in computer databases; compilation of statistics; data search in computer files for others; demonstration of goods; computerized file management; market studies; office machines and equipment rental; provision of an on-line marketplace for buyers and sellers of goods and services; arranging and conducting of commercial, trade and business shows and exhibitions; outsourcing services (business assistance); procurement services for others [purchasing goods and services for other businesses]; wholesale, retail and online store services in the fields of apparatus and equipment for recording, capturing, storing, processing, editing, displaying, transmitting and reproducing sound, images or video; wholesale, retail and online store services in the fields of telecommunications, information technology (IT) and networking devices, equipment, systems and software; wholesale, retail and online store services in the fields of phones, handheld mobile digital electronic devices, wearable computing devices, horological and chronometric instruments, navigation devices, computers, computer hardware and computer software; wholesale, retail and online store services in the fields of energy management systems, home automation systems and security systems; wholesale, retail and online store services in the fields of medical, fitness and health-monitoring equipment and apparatus; wholesale, retail and online store services in the fields of heating, cooking, cooling and lighting apparatus and equipment; information, advisory and consultancy services relating to all the aforesaid services.

**Class 37:** Construction services; installation and repair services for electric and electronic devices and systems, telecommunication devices and systems, sensors, chips, microprocessors, semi-conductors, smart cards (integrated circuit cards), printed circuits, navigational devices and systems, vehicles, drones and parts and fittings thereto; rental of construction equipment; electric appliance installation and repair; machinery installation, maintenance and repair; installation, maintenance and repair of computers, tablet computers, computer hardware, computer peripherals, phones, smartphones, electronic organizers, smartwatches, cameras, audio and video equipment, wearable and portable computing devices, vehicles, office machines and equipment, household appliances, energy

management systems, home automation systems, lighting devices and equipment, sanitary installations, security systems, home entertainment, fitness and health equipment, medical apparatus and instruments, machine to machine (M2M) communications equipment, electric and electronic apparatus, optical and navigation devices; installation, maintenance and repair of telecommunications and networking devices, equipment and systems; information, advisory and consultancy services relating to all the aforesaid.

**Class 38:** Telecommunications services; telephone services; teleconferencing services; videoconferencing services; voice mail services; telecommunications routing and junction services; transmission of electronic mail, transmission of digital files; cellular telephone communication; communications by computer terminals; communications by fiber optic and wireless networks; satellite transmission; computer aided transmission of messages, sound, data and images; facsimile transmission; message sending; paging services (radio, telephone or other means of electronic communication); radio communications; radiobroadcasting; television broadcasting; wireless broadcasting, streaming of data, video-on-demand transmission; news agency services; electronic bulletin board services (telecommunications services); rental, hire and leasing of telecommunications devices, equipment and systems; rental of telephones; rental of modems; rental of message sending apparatus; providing online forums; providing telecommunications connections to a global computer network; providing user access to global computer networks; providing telecommunication channels for teleshopping services; providing Internet chatrooms; providing access to databases; rental of access time to global computer networks; information, advisory and consultancy services relating to all the aforesaid services.

**Class 41:** Education; providing of training; entertainment; sporting and cultural activities; arranging and conducting of colloquiums, exhibitions, conferences, congresses, in-person educational forums, symposiums, seminars, award ceremonies and workshops; arranging and conducting of commercial, trade and business conferences; organization of competitions (education or entertainment); practical training (demonstration); coaching (training); audio, video and images editing and production services; electronic desktop publishing; news reporters services; on-line publication of electronic books and journals; providing on-line electronic publications, on-line music and on-line videos, not downloadable; publication of texts, other than publicity texts; publication of books; film production, other than advertising films; production of radio and television programmes; television entertainment; radio entertainment; rental of audio and video equipment; rental of cinematographic apparatus; rental of radio and television sets; game services provided on-line from a computer network; games equipment rental; information, advisory and consultancy services relating to all the aforesaid services.

**Class 42:** Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software; installation, maintenance and updating of computer software; computer programming; computer system analysis and design; computer virus protection services; computer security consultancy; engineering; electronic data storage; monitoring of computer systems by remote access; outsource service providers in the field of information technology; recovery of computer data; research and development of new products for others; consultancy in the field of energy-saving; energy auditing; provision of scientific information; scientific laboratory services; technical project studies; technological consultancy; telecommunications technology consultancy; scientific and technological analysis, research, development, planning, optimization, support, technical troubleshooting and consultancy services in the field of

telecommunications devices, equipment, networks, systems, solutions and software; design, engineering and development of telecommunications devices, equipment, networks, systems, solutions and software; scientific and technological analysis, research, development, support, technical troubleshooting and consultancy services in the fields of artificial intelligence, nanomaterials, sensors, connectivity, information technology (IT), geolocation and mapping, navigation, computer hardware, computer software, computing technologies, data analytics, audio technologies, imaging and video technologies, digital media technologies, multimedia technologies, virtual reality technologies, radio technologies, medical and healthcare technology, public safety technology, energy technologies, transport technologies, wearable computing devices, printing, automation, connected vehicles, connected furniture, connected clothing, connected consumer products, connected home appliances, machine to machines (M2M) systems, presence capture solutions; scientific and technological analysis and research services in the fields of vehicles, furniture, medical, clothing, audio/video, home appliances and consumer products that can communicate via computer or telecommunication network, as well as support, consultancy and development services relating to all the aforementioned services; cloud computing; server hosting; software as a service (SaaS) services; infrastructure as a service (IaaS) services; platform as a service (PaaS) services; application service provider (ASP) services; providing on-line (non-downloadable) software and mobile applications; providing temporary use of on-line non-downloadable software for use as an application programming interface (API); providing temporary use of on line non-downloadable software development tools; rental of computer software and hardware; rental of audio, imaging, video, digital media, multimedia, virtual reality and presence capture software and hardware; data encoding and decoding services; leasing of data processing equipment; cartography services; mapping services; map creation services; on demand design services of online and digital maps; technical digital imaging services; industrial design; off-site data backup; research in the field of environmental protection and recycling; predictive analytic services relating to computer software, computer hardware and information technology (IT); information, advisory and consultancy services relating to all the aforesaid services.
