Specification of goods/services: <u>Class 3:</u> Soaps, air fragrancing preparations, perfumes and toilet water, essential oils. <u>Class 4:</u> Candles. <u>Class 8:</u> Cutlery, forks and spoons; multi-function knives; manicure sets. <u>Class 9:</u> Spectacles, spectacle cases, cords for spectacles, goggles for sports; binoculars. <u>Class 11:</u> Table lamps, lamps for lighting. <u>Class 16:</u> Stationery, office requisites except furniture, writing instruments, calendars, gift wrapping paper, terrestrial globes. <u>Class 18:</u> Leather and imitation leather, animal skins; attaché cases, luggage (included in this class), namely, traveling bags, trunks, cases, valises, backpacks; handbags, beach bags, sports bags, tote bags; toiletry bags (empty), traveling sets (leatherware), card cases (wallets), document cases, business card holders, wallets, coin purses; briefcases (leather goods); leather pouches; leather cases; umbrellas; walking sticks; saddlery articles. <u>Class 20:</u> Mirrors, hand-held mirrors (toilet mirrors), exhibition stands (display stands), watch display stands. <u>Class 21:</u> Decanters; art objects made of porcelain, ceramic, earthenware, terracotta or glass; tableware; glassware, porcelain and earthenware. <u>Class 22:</u> Pouches and bags made of textile for packaging and packing merchandise.		

Class 24: Lap robes; sheets; bed blankets; beach towels; terry towels.

Class 25: Clothing, excluding underwear, lingerie, nightwear and bathing suits; sportswear, excluding sports underwear; footwear, headwear; caps, belts (apparel); shawls, headscarves, long scarves, scarves, bandanas; gloves (clothing); socks, slippers; dress kerchiefs, ties, bow ties; dressing gowns.

Class 26: Decorative ribbons (haberdashery); sewing boxes; sewing kits.

Class 27: Yoga mats.

Class 28: Sporting articles; sports equipment, playing cards, games and toys, plush toys; sports bags (adapted to objects) for carrying sports articles; decorations for Christmas trees.

Class 30: Chocolates; confectionery products.

Class 34: Smokers' articles, lighters for smokers, matches, ashtrays for smokers.

Class 35: Advertising; promoting products and services via sponsorship of sports events; retail sale of perfumes, candles, cutlery, sunglasses, lamps, stationery, leather and imitation leather articles, handheld mirrors (toilet mirrors), watch display stands, crockery, pouches and bags made of textile for packaging and packing merchandise, lap rugs, beach towels, sheets, clothing, excluding underwear, lingerie, nightwear and swimwear, sportswear, excluding sports underwear, shoes, headwear, decorative ribbons (haberdashery), sports articles, sports equipment, playing cards, games and toys, plush toys, decorations for Christmas trees, chocolates, confectionery, smokers' articles.

Specification of goods/services:		

Class 3: Non-medicated cosmetics and toiletry preparations; toothpaste; non-medicated skin care preparations, namely, cleansers, creams, lotions, moisturizers, barrier creams and emollients; hand cleaning preparations; non-medicated hand soaps; non-medicated skin care preparations.

Class 5: Sanitary preparations for medical purposes; antiseptics; disinfectants; antifungal preparations; hand sanitizing preparations; plasters; materials for dressings; surgical, medical and wound dressings; medical tapes; surgical tapes; adhesive pads for medical use; dental and orthodontic preparations and materials; material for stopping teeth; dental wax; dental impression materials; dental cements; biological/nonbiological indicators; chemical and steam indicator strips and tape for use with autoclaves and for testing the sterility of medical instruments and equipment; indicator strips for testing glutaraldehyde, ethylene oxide and other chemical solutions and gases; steam sterilization indicator strips and tape containing thermally responsive compounds for medical or veterinary purposes; sterilization monitor testing kits containing indicator strips or tape, reagents and record keeping cards or binders for testing the sterility of surgical and medical instruments, equipment, and supplies; cartridges sold pre-filled with gases and gas mixtures for sterilization in the medical field; adhesive pads for use with wound dressings to seal and protect wounds from moisture; hydrocolloid pads for use with wound dressings to seal and protect wounds from moisture; biodegradable adhesive pads for use with wound dressings to seal and protect wounds from moisture; moisture absorbing, adhesive polymer pads for use with wound dressings that promote wound healing; moisture absorbing, adhesive polymer pads for use with wound dressings to seal and protect wounds from moisture; conformable adhesive pads for use with wound dressings to seal and protect wounds from moisture; burn dressings; corn pads; corn rings for the feet; corn plasters; chilblain preparations; dressings for the treatment of diabetic ulcers, pressure ulcers, surgical wounds, vascular and circulatory system-related skin diseases; medicated preparations and substances for the treatment of scars and scar-related skin conditions; medicated insoles for the treatment of skin conditions of the foot; antimicrobial metal coatings and powders containing silver oxysalts to treat the growth of bacteria for use in and on medical and surgical wound and burn dressings; antimicrobial preservatives containing silver oxysalts for the treatment of skin and wounds; antiseptic liquid bandages; liquid bandages for skin wounds; medical topical preparations, namely, liquids that form a barrier film to protect skin and treat damaged skin; bandages for dressings; bandages for skin wounds; adhesive bandages; surgical bandages; biological and non-biological indicators for monitoring sterilization processes for medical or veterinary purposes; disinfectant and film forming solution for use on incise area of a surgical patient; dressings for the treatment of wounds, namely, foam-based dressings, colloid and collagen-based dressings, and chemically treated dressings; foam dressings for wound healing applications; foam pads for use as materials for medical wound dressing; gauze for dressings; materials for dressings, namely, gauze, hydrogel pads, hydrocolloid pads; antimicrobial hand-sanitizing preparations; hydrogel for medical purposes; medical adhesive strips for closing wounds or incisions; medical and surgical hemostatic preparations for halting blood flow; medical wound dressings for use in cleansing wounds, exfoliating skin and wounds and removing debris from skin and wounds; dressings for the management of exudate from wounds; medicated skin care preparations; medicated compresses; medical cleansers for skin and wounds; sanitizing wipes and pads; antiseptic preparations; medicated pads impregnated with anti-infective preparations; hydrocolloid dressings; plasters for medical purposes; medical plasters; adhesive plasters for medical purposes; self-adhering foam for use in cushioning orthopedic casts and splints; swabs for medical purposes; medicated swabs; therapeutic medicated bath preparations; medicated bath preparations; bath salts and bath preparations for medical purposes; transparent film dressings; wound care products containing silver, namely, antimicrobial medical and surgical wound and burn dressings; impregnated bandages, surgical bandages, and dressings for skin wounds; wound dressings for negative pressure tissue treatment; anti-microbial wound dressing; bandages impregnated with anti-infective preparations; eye patches for medical

purposes; anti-cavity dental coating preparations containing fluoride; bonding and primer materials for dental purposes; material for repairing teeth and for dental crowns and bridges; dental ceramics; material for dental bridges; dental adhesives; adhesives for dentistry and dental technical purposes; dental bite registration materials; duplicating material for dental and dental technical uses, embedding material for dental and dental technical uses; dental sealants; dental composite materials; teeth filling material; dental restoration compounds; etching materials for dental use; fissure sealant for dental and dental technical purposes; material for lining and filling tooth cavities; material for tooth crowns and tooth bridges for dental and dental technical purposes; materials for artificial teeth; plastics for use as modeling material for dental purposes; materials for dental fillings and for sealing purposes; medicated candy, namely, a xylitol sweetened mint; medicated dental rinses; medicated anti-cavity mouth rinses; medicated anti-cavity dental rinses; medicated mouthwash; medicated dentifrices; medicated toothpaste; plastics in the form of paste or powder for the manufacture of tooth crowns, tooth bridges, artificial teeth and plastic prostheses; plastics as modelling material for dental uses, tooth fillers, tooth lacquers; sand-blasting agents for adhesive restoration and for pretreatment for adhesive attachments for dental and dental technical uses; bonding and primer materials for dental purposes; dental veneers; dental veneers for use in dental restoration; dental resin for temporary bridges, crowns and veneers; orthodontic bonding paste; adhesives for use with orthodontic appliances.

Class 9: Speech recognition software; software for medical transcription, coding and reimbursement; software for creating and maintaining medical, patient and healthcare records; computer hardware for voice transcription; electronic apparatus for testing the sterility of medical equipment; computer hardware and downloadable computer software for use in the healthcare field in connection with reporting, scanning and medical coding of patient medical information; computer hardware and downloadable computer software for use for reporting and clinical documentation of patient medical information; computer hardware and downloadable computer software for creation of clinical documentation of patient medical information in health information systems; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the field of medical records and health information management; computer hardware and downloadable software for managing patient medical information; computer software for retrieval, display, and browsing of medical information; computer hardware in the nature of stand-alone voice controlled devices for medical and data transcription; downloadable audio to text transcription computer software used for controlling stand-alone voice controlled devices; wireless communication devices for voice and data transmission; computer hardware and downloadable software used for the control of voice controlled information and communication devices; downloadable voice recognition software; downloadable computer software for medical records management, namely, software for recording and reporting patient medical data for billing, third party payer and regulatory agencies, and for assessing, tracking, and reporting infections; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of transcription, healthcare documentation, healthcare records management; computer software and computer software development tools for speech and language recognition; computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of medical records, medical coding, compliance and health information management; downloadable computer software for use in calculating, analyzing, grouping and processing patient information for healthcare billing and government reimbursement; downloadable computer software for use in dentistry to utilize images of teeth and the mouth, and for designing and milling dental restorations, namely, crowns, bridges, inlays, onlays and veneers; downloadable computer software for use in the reporting of and the clinical documentation of patient medical information on portable devices; downloadable computer software for use with stethoscopes and in the field of cardiac and

pulmonary auscultation for the display of sounds primarily related to the heart and lung; downloadable computer software for use with stethoscopes for use in the field of medicine for auscultation and the transmission primarily of heart and lung sounds; downloadable computer software, namely, a desktop transcription platform featuring voice capture, integrated speech recognition, interpretation and formatting, editing tools for transcriptionists, and document management and distribution; computer hardware and downloadable software for the delivery of enterprise and internet-based software applications for use in connection with healthcare transcription, dictation, electronic signature and speech recognition solutions; downloadable computer software, namely, integrated software applications designed to organize and integrate medical record information; downloadable software for the delivery of enterprise applications targeting the creation and connection of mission critical healthcare information including transcription, dictation, electronic signature and speech recognition solutions; computer transcription hardware and downloadable computer transcription software for use in the medical field to allow physicians the ability to dictate, self-edit and electronically sign medical reports and documents or send to transcription service for return to electronic inbox upon completion for signature; dictation microphones incorporating a light pen; downloadable computer software and mobile applications using artificial intelligence and speech recognition to assist in the entering of data in health information systems; downloadable mobile application software featuring a database of recorded heart and lung sounds for use as a teaching aid in training auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile application software featuring a database of recorded heart and lung sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; downloadable mobile application software for providing continuing professional education and training for medical personnel in the field of auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile applications using speech recognition for use by medical and healthcare professionals for the documentation of patient medical information and electronic health records; downloadable mobile applications for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescriptions; downloadable software application that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; downloadable software application that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organizations; downloadable software application that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; downloadable software application that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; downloadable software application that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field; downloadable software in the nature of a mobile application for providing information to healthcare professionals to assist in the provision of wound care services to patients and to assist in ordering or purchasing products; scanners and related downloadable software for capturing images of the mouth and teeth for use in dentistry; laboratory equipment and supplies, namely, laboratory analysis kit comprising wands for collecting bacteria and pre-measured chemical solutions for preparing standardized inoculums for antimicrobial susceptibility testing in a clinical laboratory, sold as a unit; laboratory equipment, namely solid phase extraction disks, extraction disk cartridges and high density glass beads for use as filter aids; laboratory equipment, namely, membrane filters for liquid; laboratory equipment, namely, membranes, capillary

membranes, flat membranes, and porous tubular membranes, and modules containing said membranes for the equipment, namely, liquid concentrators, purifiers, and filters; laboratory filters; filters for use in laboratory equipment; laboratory filters in the nature of membrane filters made of synthetic or regenerated polymers in the shapes of flat films, hollow fibers, tubes and pipes; laboratory filters in the nature of membrane filters in the shapes of hollow fibers, tubes and pipes connected with textile threads; scientific equipment, namely, laboratory filters for osmosis and reverse osmosis, sterilization processes, ultrafiltration, and microfiltration; laboratory equipment, namely, microporous hollow fibers for conducting membrane separations and apparatus containing the same; laboratory equipment and supplies, namely, microporous hollow fibers used in contactors, degassers, filters, concentrators, purifiers, diffusers, and medical laboratory equipment; membranes made of synthetic or regenerated polymers in the form of hollow fibers, tubing, piping and film for laboratory separation processes, and modules equipped with the aforesaid membranes for scientific laboratory purposes, namely, filtration modules, modules for osmosis and reverse osmosis, sterilizers, ultrafiltration modules, debubblers, degassers, mass transfer devices; laboratory equipment, namely, membranes, capillary membranes, flat membranes, and porous tubular membranes; laboratory filter membranes used in microfiltration and ultrafiltration; technical apparatus, namely, filtering membranes for technical or medical separations and transfers; filters for blood and blood components for laboratory use; ophthalmic lenses and ophthalmic prisms; indicator strips for indicating temperatures for use in sterilization and safety-monitoring.

Class 10: Orthopedic articles; orthopedic inserts for footwear; hosiery for medical, surgical, and orthopedic purposes; stethoscopes; orthopedic and compression bandages and wraps; medical and surgical drapes, sheets and gowns; medical connectors and closures and component parts thereof for use in connection with intravenous (iv) lines and medical fluid management, delivery, extraction and removal; patient warming systems; medical devices for closing wounds; wound drainage apparatus; wound suction apparatus; negative pressure wound therapy systems; incubators for medical purposes; orthodontic brackets and appliances; dental crowns; membranes used in medical devices including blood treatment and dialysis; cases fitted for medical instruments; capillaries made of polymers and arranged in the form of mats for heat exchangers applied in medicine; implant abutments for dental purposes; dental apparatus and instruments for producing, relining and repair of dental prostheses; dental curing lights; dental apparatus, namely, intra-oral light systems; dental devices and apparatus, namely, mixers and dispensers for dental impression material; dental instruments, namely, mandrels, burs, discs, cups, wheels, points, brushes, and abrasive strips, used to grind, polish or finish dental restorations; dental instruments, namely, custom dental matrices for use with dental restoratives and dental composite materials; dental instruments, namely, dental prophylaxis angles and dental prophylaxis cups, for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, disposable prophylaxis angles; dental syringes; dental apparatus, namely, dispensing guns specially adapted for dental purposes for use in dispensing dental restorative material; finishing and polishing discs for dental use; dental instruments, namely, scissors, crimping pliers, contouring pliers and impression trays; applicators and dispensers for dental primers, cements, adhesives, impression materials and restorative materials; glass-fiber posts used in dental restorative procedures; dental prophylaxis angles and dental prophylaxis cups for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, preparation dental instruments for mixing, dispensation and application of dental impression materials, bite checking materials; dental filling and bonding material contained in disposable applicators; cutting and grinding discs for dental applications; orthodontic appliances, namely, pliers, braces, lugs, wires, pins and brackets; orthodontic buccal tubes; orthodontic rubber bands; wound suction apparatus, wound drainage apparatus, and parts and fittings therefor; disposable negative pressure wound therapy device in the nature of a subatmospheric pressure source and related tubing, all for use with wound interface drainage receptacles, and all for promoting wound healing;

ear tips for stethoscopes; stethoscopes and parts and fittings therefor; electronic noise reducer sold as an integral component of stethoscopes for enhancing auditory capabilities for auscultation; medical instrument consisting of a wireless electronic transceiver for use in conjunction with electronic stethoscopes for the recording and display of heart sounds and other physiological acoustic signals; elastic bandages; casting tape for orthopedic purposes; orthopedic splints; reinforcing strips, composite fabrics containing fiberglass and resins for use in making casts; support bandages; therapeutic compression wraps; padding for orthopedic casts; orthopedic casting tools; surgical sterile sheets; medical isolation gowns; protective barriers in the nature of medical drapes; medical electrodes; cardiac electrodes; electrodes for external defibrillators; medical electrodes with or without chemical conductors and wet gels for use in cardiac, electrocardiograph, electroencephalograph and other types of patient monitoring; medical leads and connectors for use with medical electrodes; defibrillation pads; electrosurgical pads, plates and adapters to remove rf current from a patient's body during electrosurgery; padding for use between medical equipment and patients or for elevating or positioning limbs; pouches for holding surgical and medical instruments; surgical compresses; surgical wraps; medical table sheets for examining tables and operating tables; thermometers for medical use; therapeutic hot and cold therapy packs; surgical skin staplers; drainage tubes for medical purposes; receptacles for collecting wound drainage; medical and surgical apparatus for tissue transplantation; electronic temperature monitors for medical use; blankets for medical purposes; medical apparatus for human and veterinary use for warming and cooling a patient's body temperature, comprising an air convective device, a hose, a gown or blanket, sensors, controls, and parts and fittings therefor; medical apparatus for intravenous administration of fluids, namely, fluid warmers; medical apparel in the nature of lab coats for use in medical examination and treatment; medical device control system, namely, a system comprised of microprocessor controlled pumps, wound dressings and connecting tubing for providing alternating negative pressure to promote tissue granulation and decompression, flap and graft survival, and to remove infectious materials; electronic medical appliances for wound healing; medical device control systems comprised of medical therapeutic pumps and medical connection tubing for controlled delivery of therapeutic pressure to wound healing devices; medical fluid injectors; medical devices for managing fluids; medical devices for fluid delivery, extraction and removal; medical instruments, namely, hemostats that clamp blood vessels to diminish or halt blood flow; vacuum pumps for medical purposes; medical devices, namely pump units for promoting wound healing, receptacles for collecting wound drainage, and parts and accessories for the foregoing; medical devices, namely, medical connectors and component parts thereof for use with products for transferring fluids; plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; medical devices, namely, tamper-evident devices for use in connection with intravenous (iv) lines; wound therapy system comprised of wound treatment apparatus, wound dressings, valves, tubes and straps with holsters; accessory for wound treatment apparatus, namely, strap and holster used to secure apparatus to patient; medical equipment, namely, membranes made of polymers in the form of hollow fibers for separation processes for use in medical apparatus for blood treatment, dialysis, hemodiafiltration, hemofiltration, endotoxin filtration; medical equipment, namely, membranes, capillary membranes and flat membranes, and modules containing said membranes for medical equipment, namely, hemoconcentration apparatus, hemodialysis apparatus, hemodiafiltration apparatus, plasmapheresis apparatus, oxygenators, and plasma fractionation; hypodermic needles; filters for medical purposes, namely, blood filters; hemodialysis apparatus; membranes for blood filtration, hemodialysis, hemofiltration, hemodiafiltration, and oxygenation; membranes for use in medical apparatus made of synthetic or regenerated polymers in the form of capillaries, tubing, piping, and film for hemodialysis, hemofiltration, hemodiafiltration, endotoxin filtration, plasmapheresis, hemoconcentration; membranes for use in medical apparatus made of synthetic or regenerated polymers in form of films, hollow fibers, tubings and pipings for separation processes, as well as bundles or fabrics of the aforesaid hollow fibers, tubings and pipings in combination with textile threads all for use in hemodialysis, hemofiltration, hemodiafiltration, endotoxin filtration,

plasmapheresis, hemoconcentration; capillaries of hollow fibers or tubes made of polymers and arranged in the form of mats for heat exchangers applied in medicine; membranes made of polymers in the form of hollow fibers for separation processes for use in medical apparatus for blood treatment, namely, dialysis filters, hemodiafilters, hemofilters, endotoxin filters, plasmapheresis filters, blood oxygenators, microfiltration, ultrafiltration, and sterilization units for medical purposes, air filtration for medical ventilators; membranes made of synthetic or regenerated polymers in the form of hollow fibers, tubing, piping and film for separation processes, and modules equipped with the aforesaid membranes for use in medical apparatus, namely, dialysis and plasmapheresis filters in the nature of hemodialysers, hemofiltration, hemofiltration modules, hemodiafiltration, hemodiafiltration modules, endotoxin filtration modules, plasmapheresis modules, and hemoconcentration modules; membranes in the nature of hollow fibers for medical therapeutic purposes; membranes in the nature of hollow fibers for medical therapeutic purposes, sold empty, for use in for blood filtration, hemodialysis, hemofiltration, hemodiafiltration, and oxygenation; negative pressure wound therapy device in the nature of a subatmospheric pressure source and related tubing, all for use with wound interface drainage receptacles, and all for promoting wound healing; orthopedic apparatus and instruments for diagnostic and therapeutic use; orthopedic, orthotic, chiropody, foot care and veterinary apparatus and instruments, namely, orthopedic cushions and padding, orthopedic padding for the treatment and prevention of oedema or scarring, orthopedic padding for use in combination with casts or with prosthetics, medical and surgical gloves; orthopedic cushions and padding, namely, pressure relieving cushions, pressure relieving pads, pressure redistributing pads, protective apparatus against the hardening, ulceration or inflammation of areas of skin, cushions for care of the feet; orthopedic articles, namely, orthopedic insoles, disposable orthopedic insoles; instruments and apparatus for placing bandages, namely, slings; apparatus for the fixing of fingers and toes, namely, splints; elastic bandages for joints; elastic bandages, namely, elastic gaiters; medical braces for knees, namely, elastic knee-joints; orthopedic support bandages; subatmospheric wound therapy device for use at home, which utilizes negative pressure to promote tissue granulation and decompression, flap and graft survival, and to remove infectious materials; surgical staple removers; surgical sponges; surgical staplers; wearable medical devices for protecting against the hardening, ulceration or inflammation of areas of skin; medical device control systems, namely, systems comprised of microprocessor-controlled pumps, wound dressings and connecting tubing for controlled delivery of therapeutic pressure to tissue; medical devices, namely, plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; surgical masks; disposable surgical masks; reusable surgical masks; sanitary masks for medical purposes; protective masks for medical purposes; sanitary masks for medical wellness purposes; masks for use by medical personnel; protective face masks for medical use; face masks for use by health care providers; personal protective equipment (ppe), namely, masks for use by medical personnel; respirators for filtering air for medical purposes; sanitary masks; medical testing apparatus for analyzing sterilization indicators.

Class 11: Water filtering apparatus; liquid filtration and purification units and parts and accessories therefor; filters for high purity filtration for use in commercial, industrial and bioprocessing industries; incubators for medical sterilization; membranes for use in filtration and purification in the medical industry; filter membranes used in microfiltration and ultrafiltration; membrane filters for water filtering apparatus; apparatus and instruments for use in the sterilization of liquids and gases used in the medical industry; fibrous filtering media for general industrial use in the purification of air and industrial fluids; filtering for cleaning and purifying air, gases, and liquids, namely, a membrane contactor comprised of microporous hollow fibers for conducting membrane separation and transferring dissolved gases to or from a fluid stream in the nature of liquid filters; water filtration and purification units and replacement cartridges and filters therefor; apparatus for the separation of liquids being water filtering apparatus; filter cartridge for the filtration of liquids; filtering devices, namely,

filters, filter cartridges, filter media and filter housings for the removal of impurities from fluids and other filterable substances; fluid filtering cartridges for general domestic and industrial use; filtering devices, namely, filters, filter cartridges, filter media, filter housings, membranes, filter discs and parts thereof for fluid filtration for domestic and commercial use; water softening and conditioning units; reverse osmosis water purification units and flow restrictors for reverse osmosis water purification systems; fibrous filtering media for general domestic and industrial use in the purification of air and fluids; non-electrical water purification units; air filter material and air filters for industrial and domestic use in furnaces, air conditioners, room air cleaners, home and building HVAC air ventilation and cleaning equipment, air cleaning and purification units, and other domestic, industrial and commercial uses and installations; filtering devices, namely, filters, filter media, filter cartridges, and filter housings and parts thereof, all for use in the filtration of liquids and gases; water purifying units, for potable water for commercial or industrial use; filters and filter cartridges sold as components of liquid purification units for filtering coatings, liquids for machinery and engines, and liquids used in the electronics industries; filters for high purity water and liquid filtration for commercial and industrial use, namely membrane filters for filtering liquids; filters for industrial use in water filtration, water purification and liquid filtration namely, membrane filters for filtering liquids; filters, filter housings, filter media, filter cartridges, and associated hardware, employed in the filtration of goods by the electrokinetic capture and adsorption of contaminate particles from fluids; filtration capsule for use in the clarification, purification, and separation of liquids, namely, aqueous or semiaqueous compounds; mechanical liquid straining and filtering cartridges, and parts thereof; water filtration and purification units and replacement cartridges and filters therefor; water filtering units for domestic, commercial, and industrial use; water filters and components thereof, namely, filter cartridges for reduction of hard water, acid water, iron, lead, dirt, rust and sediment from drinking water supplies, from hot water systems, and from household appliances and humidifiers, for domestic and industrial use; water filtration systems comprised of a filter cartridge, tubing, connectors and brackets; water filters; water filter cartridges; air purifiers; autoclaves for medical use.

Class 35: Medical transcription services; medical coding services; medical scribing services; consulting services in the field of medical coding; online retail store services; consulting services in the field of patient medical records coding; consulting services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; medical transcription and medical documentation business management solution services used by health care providers to improve documentation workflow and healthcare records management in the field of physician documentation, integrating dictation, transcription, speech or language recognition, medical coding, and delivery and retrieval of health related reports, allowing doctors to spend more time during physician-patient encounters, medical exams, and evaluations; medical coding services in the nature of assigning predetermined codes for medical diagnoses and procedures, and improving and auditing medical coding; outsource service provider in the field of medical coding; outsource service provider in the field of professional and technical coding for ambulatory medical and surgical providers for purposes of offering clinical documentation improvement services, improved productivity and efficiency, staffing coverage, guaranteed turnaround times and appropriate revenue capture; consulting services in the field of professional and technical coding for ambulatory medical and surgical providers; physical and on-line retail store services featuring toiletries, therapeutic devices, surgical, medical, orthopedic, orthotic, chiropodial, podiatric, foot care related, and veterinary apparatus and instruments, wound care preparations and instruments, dressings, medicated products and preparations, and preparations for the care of the skin, feet and body; analysis of business data, namely, reviewing medical documents and assigning medical, billing, insurance, and administrative codes thereto.

Class 41: Medical, healthcare, dental and orthodontic education services; continuing education services, namely, providing online continuing professional education and training seminars and courses in the field of auscultation and cardiovascular diagnostics for medical personnel; educational services related to medical coding, compliance and health information management, namely, on-site manual coding, customized training seminars and specialized coding/operational assessments; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals and facilities regarding monitoring, and improving best practices in, sterilization procedures used in the medical field, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, seminars, workshops and learning tools to medical and healthcare professionals and facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely, intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; educational services, namely, training in the use of computer software for voice recognition and medical records.

Class 42: Consulting services related to medical software; research and design for medical purposes; software as a service (SaaS) for speech recognition, medical transcription, coding and reimbursement; software as a service (SaaS) for creating and maintaining medical, patient and healthcare records; design of water treatment systems for others; consultation and testing services in the field of water treatment; computer software consultation; technical support services, namely, troubleshooting of computer software problems; computer software design; design of commercial water treatment systems for others; providing on-line non-downloadable software that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; providing on-line non-downloadable software that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organization; providing on-line non-downloadable software that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection

therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; providing on-line non-downloadable software that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; providing on-line non-downloadable software that enables users to monitor, and improve best practices in, sterilization procedures used in the medical field; providing consulting services in the field of hospital inpatient classification for payment reimbursement purposes and providing patient profiles for hospitals; providing on-line, non-downloadable software for use in extracting patient clinic notes and medical records and translating language for assigning diagnostic and treatment codes, and for comparing accuracy with other coding inputs, for use primarily in medical reimbursement; providing online, non-downloadable, Internet-based software using speech recognition for use by medical healthcare professionals for the documentation of patient medical information and electronic health records; providing online, non-downloadable, Internet-based software for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescription; providing remote diagnosis and monitoring of dictation and transcription systems to identify malfunctions and defects and ensure proper functioning; providing temporary use of non-downloadable cloud-based software for artificial intelligence virtual assistance for use in the healthcare field in the clinical documentation of patient medical information in health information systems and in the management of clinical documentation improvement (CDI) processes; providing temporary use of non-downloadable software for use in extracting medical records and translating language for assigning codes primarily for medical reimbursement; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use as a teaching aid in training auscultation and cardiovascular diagnostics; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; providing temporary use of online non-downloadable software featuring continuing professional education and training seminars and courses for use by medical personnel in the field of auscultation and cardiovascular diagnostics; providing temporary use of non-downloadable software that identifies patterns of language in medical documents in order to organize, manipulate, and codify such documents; software as a service (SaaS), namely, services featuring software for providing medical, health, and wellness information accessible through mobile applications; software as a service (SaaS), namely, services featuring software for providing medical, health, and wellness information accessible through remote connectivity module equipped devices; software as a service (SaaS), namely, software to assist in ordering or purchasing products.

Class 44: Therapeutic wound care services; monitoring and remote monitoring of individuals or groups for medical treatment; medical, orthodontic and dental consultation services; medical consulting services in the fields of disease infection control, intravenous line care and maintenance, and skin protection; consulting services provided to medical and healthcare professionals and healthcare facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely, intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; medical consulting services provided to medical and healthcare professionals and healthcare facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes; medical consulting services

provided to medical and healthcare professionals and healthcare facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; medical consulting services provided to medical and healthcare professionals and healthcare facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; medical consulting services provided to medical and healthcare professionals and healthcare facilities regarding monitoring, and improving best practices in, sterilization procedures used in the medical field; medical services, namely, providing information related to advanced wound care, negative pressure wound therapy, and therapeutic support systems; monitoring, tracking, and reporting medical conditions, medical data, and medical records, namely, medical diagnostic testing, monitoring and reporting services in the nature of remote monitoring of data indicative of the health or condition of an individual or group of individuals for medical diagnosis and treatment purposes; medical diagnostic monitoring and reporting services, namely, monitoring and reporting the medical condition of individuals; therapeutic healthcare services, particularly the automated alternating application of negative pressure wound therapy and controlled delivery of topical solutions to a wound site; tissue therapy and tissue therapy control services, namely, the provision of reduced pressure tissue treatment using therapeutic devices with wound site feedback control systems for optimizing control of the therapy.

Specification of goods/services:

Class 9: Global Positioning System using satellite constellations; Internet servers; telecommunication hardware, namely, devices in the nature of satellite-based and earth-based antenna systems that allow wireless connection to global communication networks and wireless connection of electronic devices to global communication networks, and accessories required for facilitating such wireless connection, namely, cables, travel cases, ethernet adaptors, and routers; downloadable and recorded computer software for enabling the transmission of information in the fields of meteorology, climatology, geography, topography, oceanography, and human and animal migration to telecommunications networks and navigation devices; downloadable computer software for enabling wireless connection to global communication networks and wireless connection of electronic devices to global communication networks; electronic global positioning and geo-location systems devices, namely, global positioning satellite-based receivers; all of the foregoing excluding the US government's global positioning systems; equipment for receiving, processing, and transmitting voice, video, data and information via telecommunications and wireless signals, satellites, and computers, namely, satellite receivers, satellite receiver modules, transmitters of electronic signals, multiplexers, decoding boxes, data processors, integrated circuits, and accessories required for facilitating the transmission of such voice, video, data and information, namely, cables, travel cases, ethernet adaptors, and routers; computer operating hardware and downloadable and recorded computer operating software for use in the aforementioned goods, satellite terminals, and satellite earth stations.

Class 38: Internet service provider (ISP) services; satellite telecommunications services, namely, transmission of a wireless internet signal via satellites; providing third party users with access to

satellite telecommunications infrastructure; telecommunication services, namely, transmission and delivery of digital data, light files, sound files, data, information and image signals, by means of computer and satellite networks; collecting and transmitting real-time data and images obtained via satellites and space vehicles; satellite communication and transmission services; wireless broadband communication services; transmission of data, voice and video via satellite; Interactive satellite communication services; delivery of messages by electronic transmission; providing telecommunications connections to the Internet; telecommunications gateway services; providing high-speed wireless internet access; providing multiple-user access to the internet, global computer networks, and electronic communications networks; providing access to global computer information networks; telecommunications services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; providing information in the field of satellite telecommunications services via a website; providing information via a website relating to providing Internet access via satellite.

Class 39: Providing transportation and navigation information for use in the fields of meteorology, climatology, geography, topography, oceanography, and human and animal migration via telecommunications networks and satellite aided navigation devices; providing transportation and navigation information via global positioning and geolocation wireless and satellite networks, excluding the US government's global positioning systems.

Class 42: Providing via a website geographic mapping data and images obtained via satellites and space vehicles; cloud storage services for electronic data and files; cloud computing services; cloud computing featuring software for collecting, tracking, monitoring and analyzing data obtained via satellites and space vehicles in the fields of meteorology, climatology, geography, topography, oceanography, human and animal migration; cloud computing featuring software for enabling and managing simultaneous, multiple modes of communication via satellites; cloud computing featuring software for use in connection with data processing, data storage, data capture, data collection, data warehousing, data management, data mining, database analytics, and secure data sharing; satellite telecommunications technology service to allow efficiencies of the carrier by creating efficient use of bandwidth on a satellite transponder; design, development, and maintenance of telecommunications networks, software and apparatus in the field of satellite communications; providing scientific research information in the fields of meteorology, climatology, geography, topography, oceanography, and human and animal migration via telecommunication networks and wireless navigation devices; providing online computer mapping services; research and development of technology in the field of satellite communications; engineering services in the field of satellite communications; scientific research; scientific and technological services, namely, scientific research and analysis of data in the fields of meteorology, climatology, geography, topography, and oceanography; electronic monitoring of environmental and atmospheric conditions using satellites and sensors; remote sensing services, namely, aerial surveying through the use of satellites; searching and retrieving information, sites, and other resources available on computer networks for others in relation to satellite data, recordings, and measurements; providing scientific research information concerning satellite internet services via a global information network.
